Transfers And Old Students Hike Figures

Enrollment Numbers Increase As Deadline For Registration Draws Nearer

Enrollment figures are increasing well toward the goal set for the 1937 fall quarter as last year's and earlier credits were- not -in- stigated. Matriculation numbers are necessarily not complete but officials say that the 70 per cent of the same as last fall.

Many former students who dropped out of school to teach or engage in some other activity, have returned. There are also between 15 and 20 girls who are transfers from other colleges, and several who have attended school here one quarter or more. To date, nine of the United States, are represented. Names of the other new students are:

Miss Johnnie Jones, of Wiscassett on the coast of Maine, who has spent her summer at Camp Glen-rochi, Dean of Women. There she is a member of the senior class, is Lambda archery manager, and Vice-President of the Math-Science Club.

To head the editorial staff, Editor Rosalind Lane announces the following appointments: Katherine Moore, managing editor; Moultrie; C. J. Morris, assistant editor; Louise Bell, news editor, Arlington; and Eileen Byland, feature editor, Valdosta. The new setup provided for in the library building will be under way before Christmas. Present indications are that the situation will probably be cleared up in a few weeks and construction on the new building under way by the end of the year.

According to interviews made Wednesday, the faculty members are returning to school from vacations that include a wide variety of experiences. They range from the sun in the back yard to honeymooning through Europe!

Tryouts For Staff Begin Monday

We wish to dedicate the first editorial of the year to the freshmen. College officials and college faculty are particularly pleased to welcome you, churches and YWCA have extended greetings, the business men of Valdosta have sent envelopes addressed to you. Fol lowed by Monday afternoon, your assignment will be found in the editorial staff before Monday. You may have been asking when tryouts for a position on the paper, hand signed the notice posted on the bulletin board. If you did not switch from page 4 to page 2. We plan to write more editorials for a type of paper. One of the most outstanding features of the Campus Canopy is its role as an advocate. There is little on campus to meet each person's particular need or talent. There are fifteen columns this year, each column has a focus. The columns are scheduled in rotation, and there is a larger staff to do the first features of the program. But first, let us take a look at the changes in the Campus Canopy.

The paper you are reading is very different in appearance and structure than the paper you are reading now. To begin with, we are using standard newspaper print this year instead of the magazine style. The changes are noticeable. The new type is not for printing only not the body of articles, but also in the design. The pages are longer and the columns are narrower. There are five columns this year, previously there have been four. The editorial page has been reduced from page 4 to page 2. We plan to write more editorials this year the system of staffs is slightly different. Formerly the business manager was in charge of the entire office. Under the new plans, she will be responsible for business only. As present, she is acting as a liaison between the business manager and the students. The exchange editor will write a weekly or bi-weekly column on interesting happenings on campus.

A large number of freshmen have been asking when tryouts will be held. Tryouts for the staff will be held early in the year. During the year. Many varied musical programs are scheduled. There are several meetings, tryouts and bid sessions by Carolyn Greene? It hits the spot for dormitory wear. Don't tell anybody, but Kitty O'Neal has the smoothest black suede skull capa are very good. In a world of housecoats, have you ever wondered by the many highly colored cheaply printed material that line is not available. High quality prints should be remembered as having made a very fine talk in assembling a program of expansion and a larger staff is one of the features of the program.

Tryouts are held for a position on the paper. The notice posted on the bulletin board, if you did not switch from page 4 to page 2.

Big Apple Comes With Freshmen; Riley Is Accompanied By Horse

To the new students go the big apples—for bringing the "Big Apple," the fastest steps in saving time to the campus.

Either tracking, studying, or helping these new girls make their way—some have had sisters, before them, others have friends who came to the college once upon a time—others said only uneasy misery mine—my mother said to take this one.

Coco Lee Booth, Anne Joiner, Sylvia Berntsen, her sisters, Lois and Willy, have chosen in sisters' Alma Mater—Ruby Lilly whose home is Florida and Evelyn May from Mississippi think it's grand fun to come alone to a new college in a new state.

Hazel McLeod, Monttrie, remarks upon the neatness of her home, "It wouldn't be so far to go if I should get sent."

Miss Margaret Pardee, Miss Dorothy Carson and Mr. Joe Scala will furnish music during the evening while the faculty receive the guests. Later, a social program, sponsored by the music and speech department of the college, will be held this evening from 7:30 to 11 in the Ashley Rotunda.

The freshmen studied from the revised handbook under supervision of student advisors chosen from the upperclassmen. The use of these student advisors is a new feature of our student government, their duty being to assist the freshmen through the year. Each advisor supervises about ten girls and will hold regular meetings through the year.

Faculty Extend Formal Invitation

Miss Annie P. Hopper, in half of the faculty, extends an invitation to the entire student body to the reception which will be held this evening from 4:30 to 6 in the Ashley Rotunda.

The factuary reception is held annually, usually on the week-end and after the upperclassmen begin classes.

College Offers Special Courses For Day Teachers

"The special course for teachers who wish to earn additional credits toward their degrees constitutes the only difference in curriculum from the plans of the past spring," says Dr. Lena J. Hawks, chairman of the curriculum committee, in commenting on additions and modifications in the plans for the coming year.

Teachers who are taking the courses offered in the late afternoon classes, which begin Friday, September 24, English 410, the Novel, and Sociology 410, Marriage and Family, have been scheduled. The work is organized on the quarter basis so that it will be possible to secure a half course (1-3 semester hours) or a whole course (3-6 semester hours) each quarter.

The college is offering these courses to teachers in the community who must have additional college work to qualify under the higher standard imposed by the new state program of education. Dr. Hawks states that the regular college students also are rearranging their schedules to include more courses in education, as the requirements for certification are higher.

The five new courses, coming under the head of elective minors, which were organized last spring, have been added into the curriculum. The elective minors are arranged for home economics, art, music, physical education, and library science.

New Additions...

(Continued from Page One) ment, but to carry on the work in the same manner as did Miss Trainer. No definite plans have been made as yet concerning membership.

A temporary staff of reporters and advertising workers has been drawn from students who have worked on the newspaper before. At present, the only permanent staff is the editorial one. Members of this staff have worked on the paper for several years. The temporary staff is subject to subtraction or addition at any time during the next three weeks.

Editor Lane states that the Campus Canopy will be issued each Saturday morning by the Norwood Printing Company. The size of the issue will be four pages, 12" by 16", and will be printed on regular news print.

There are to be five columns instead of four formerly used on the paper. Eleven or twelve issues will be published before Christmas.

Construction...

(Continued from Page One) baseball diamond. If the swimming pool materializes, the location behind the gymnasium, where work on a pool was begun once before, will be used for the pool and bathhouses.

The swimming pool project is not a new one. For two years the school has been working on the project, and WPA funds were allotted by President Roosevelt nearly a year ago. By that time, however, skilled labor necessary for the project could not be furnished by the WPA, as most Lowndes County workers had returned to regular jobs. In June, Miss Gay B. Shepperson, WPA Administrator for Georgia, who was here to make the Commencement Address, stated that federal labor probably would never be available.

Miss Eva Shrivelle, dietician for the college dining room, has made arrangements permitting day students to have lunch in the dining hall. For an incidental meal, the price will be 25 cents; for regular meals, a special price of $1 per week is offered. Students must sign up in advance of the day they intend to report for a meal.
