Dr. Gibson and James Dasher Arrange Program

Following the annual custom, Valdostans and college students of GSWC and Emory Junior will meet at 7:30 tomorrow morning at the amphitheatre on the South Campus, for the Easter Sunrise Ceremony.

Dr. Gibson Presides

The services will be conducted by Dr. T. F. Hatten, pastor of the First Baptist church.

The choir will be under the direction of Mr. James Dasher and will be composed of members of the GSWC and Emory Junior Glee Clubs. Appropriate musical and scriptural selections will be sung.

All the churches of the city will be represented in the congregation.

Seniors Take Physical Exams

Seniors this week are taking physical examinations, the last health check-ups that most of them will receive in college.

First Graduation

The Health Service this year is graduating its first class. In 1934, Dr. Marion Farbar began an intensive health program, based on freshman examination, student's food, hygiene, physical and mental health.

Records, to date, show that the seniors are definitely healthier than when they entered the college four years ago. Complete data will be published next week.

No Clases

There will be no classes on April 25. The program will consist of discussions and exhibits.

Hodgson, head of the music department at U. of Ga., will be presented.

Lamar Dodd, of Georgia, who this week was appointed by Gov. Rivers, chairman of the committee to arrange the Georgia exhibit for the Third National Recognition of American Art, to be held in New York this summer, will exhibit his paintings and discuss the place of art in the fine arts college.

Featured Entertainers

Miss Minna Heckler, lyric soprano, Atlanta, and Mr. Hugh Hodson, director of the Glee Club, will appear on the program.

The Freshman and Senior Honor Societies plan to feature new members at the fine arts program to be given Monday.

An Open Letter—

to the newly elected presidents and presi­den-elect of the clubs on campus:

We should like to start with congratulations. These members of your wake-up call show their confidence in your leadership and we share with them the belief that under your guidance each club will continue in its contribu­tions to the needs and interests of the students at GSWC.

Is YOUR CLUB TRIVIAL?

In making your plans for next year, we sug­gest that you ask yourself frankly: “How triv­ial is that club?” The answer to that question is possibly the most interesting point of this column. It would be possible to find that many clubs are so indifferent that they cannot possibly be a part of the true campus club. But we do not think that this is the case with any club.

WHY KEEPC TO YOURSELVES?

Just because one is majoring in French or Math or English does not presuppose a lack of interest in world affairs. Why do the French majors and English majors keep to themselves? Why do any of the clubs conduct meetings, dis­

Dear Editor:

A plea for fire drills was set forth in the Campus Canopy in the early part of the winter quarter. Several articles were published, and officials of the school were influenced by you and others to the extent of installing fire alarms, warning students that a fire drill will be held and advising them as to what should be done in the event. One practice was held in the day. However, no further actions have been made in this line.

Drills Are Sensible

Fire drills are a part of the activity of many clubs. Nearly all of a large percent of the “up-to-date” colleges in the United States. The purpose of them is to ac­
complish certain actions in case of fire, and thereby to keep them from be­ing panic-stricken. The thought of fear and excitement which may cause drastic dan­
gers and losses.

Fire drills are essential and should be held often. Why can't we have them on this campus? The equipment is here, the ad­

**Goin' To Town**

*By Louise People*

We nominate for this column girl of the week: Anne Brooks. The girl all-column classes, makes A's, takes a business course, and holds down an afternoon job! Congratulations on such spirit! Editor Lane has, finally decided, has one of those widely-awarded personalities—always a smile, never a tear. Her never-failing greeting, "Hey, baby," warms not only one heart, but many in the halls everyday.

Love to watch Miss Carpenter come through the gym every morning—usually with a tiny bunch of flowers or leaves for her art classes. You seem to expect her, and when she does come, you suddenly feel so glad she's here.

**“Spenders” And “Non-Spenders” Debate Budget**

By Katherine Moser

While the recession is beginning to be termed the "Roosevelt Depression" suggestions are being offered by two groups for a return to stable prosperity. The one group, the "spenders" advocate more PWA, more RFC, and all the rest.

The "non-spenders" are saying that the more direct road is a balanced budget and tax reform.

The decision is not a simple one. Considered if possible un

the quality of the student's class grade sufficiently to make any difference. In daily written work, the student should discover it anyway.

Miss Maude Callaway: I think it's a good idea. I waste a great deal of time in class that way.

-Miss L. J. Smith: I don't think it can be done with a few minutes. The student has studied or not.

Dr. J. A. Martin: I think that it's a good idea, of course, provided that the unprepared student is not permitted.

Dr. R. J. Hawke: I think it's rather silly; I can find out within a few minutes whether the student has studied or not.

Dr. E. P. Hensley: I think it's a good idea in the abstract, but I don't think it'll work.

-Spiem of Georgia, spoke at a preliminary meeting of the Georgia Educational Association Wednesday.

Dr. Sanford's remarks are encouraging beside the low rating that Georgia schools have held in the past. The credit for this, Dr. San

History Repeats

History repeats itself, time travels in wide swinging circles, some great sage observed years ago, and there is proof of the sagacity and wisdom of his words. The following article, which might have been written to cover the world situation of today, actually appeared 81 years ago in Harper's Weekly, volume 1, page 462, of the issue dated October 10, 1857.

"It is a gloomy moment in history. Not for many years—not in the lifetime of most who read this—has there been so much grave and deep apprehension; never has the future seemed so insecure as at this time. In our own country there is universal commercial prostration and panic and thousands of our poorest fellow citizens are turned out against the approaching winter without employment and without the prospect of it. "In France the political caldron seethes and bubbles with uncertainty; Russia hangs as usual, like a cloud dark and silent upon the horizon of Europe while all the energies, resources and influences of the British Empire are sorely tried, and are yet to be tried more sorely, in coping with the vast and disturbed relations in China. "It is a solemn moment, and no man can feel an indifference—which happily no man pretends to feel—in the issue of events. "Of our own troubles (in the U. S. A.) no man can see the end. They are, fortunately, as yet mainly commercial; and if we are only to lose money, and by painful poverty to be taught wisdom—the wisdom of sympathy and of charity—no man need seriously to despair. And yet the very bane to be rich, which is the occasion of this widespread calamity, has also tended to destroy the moral forces with which we are to resist and subdue the calamity."—Joe Davis, Valdosta Times.
