Four Student Government Posts Will Be Filled At Election November 13th
Compton and Powell Run For Freshman President; 5 Girls Up For Court Representative

Textiles Placed On Display Here
An unusual exhibit of textiles has been on display in the Upper Hall way. Hand-blocked materials, screen-prints of original designs, and hand-woven designs were among the colorful variety of textiles shown. Rich in oriental color and design and made of fabrics from India, Japan, and the copy of a Turkish prayer rug. The "Screen" length from Morocco,巧妙地运用东方的图案和色彩，使整个展览丰富多彩。

In sharp contrast to the oriental materials, the textiles designed by Tony Sarg, chair of the Fiber Arts Committee, are woven designs. Tony Sarg used machine techniques such as "The Pink Circus," "Aphrodite," "Little Ballet," and "Mystery Wood" for the display.

Small School Politics

"The event was characterized by dignity and simplicity," and we are not quoting the wedding account on the society page of yesterday's paper. The majority of a G.S.W.C. election campaign consists of the most publicized events on the campus for most part have been free from "hot" campaigning.

When nominees make speeches in an effort to promote their candidates, it is usually the careless speech who wins the election. If this were a large campus on which there was some doubt as to who are the candidates, ac-

limited to the existing of petitions and the involvement of the candidates through the candidates.

Surely the students must somehow be aroused to take an interest in elections.

They have been free from mass-meeting tactics and based on calm, cool judgment of the voters. A good quality of office-holder material has always been maintained, yet too few of the students were not interested in the candidates' qualifications by talking with the voters. They are expected to encourage classmates to vote on election day.

The majority of G.S.W.C. elections have been decided by the number of autograph copies the candidates have handed in. This year first-year candidates have not been as large in number as in previous years. The students at the Georgia State Woman's College are probably more or less apathetic towards the election.

The candidates who have shown the most interest in this election are Betty Majette and Betty Torbert. They have been going to the polls every day, and have been handing in autograph copies of their names to the office-holder material.

Students at the Georgia State Woman's College have also been free from the election fever. The students are probably more interested in their studies than in the election.

It seems as though the election has been a bore to the students, and they are not interested in the candidates who are running for office. They are more interested in their studies than in the election.

Poetic Pauses

"This above all, to thine own self be true." Yes, they did use this famous line in a current movie, and if you're the kind of person who knows what you want, you can write it in what play, why don't you look in Edward Albee's "Who's Afraid of Virginia Woolf?" This column will print the whole speech with Albee's note about Virginia Woolf who just can't use the library for anything but assignments.

Edna St. Vincent Millay has once again brought to the national paying trolley her poem, "Mourner of Lillies" which appeared in a recent issue of Life, and was dramatized over a national broadcasting station. You will have to read the poem, but you will enjoy every word of it.

To work, to wait, to blink, to walk alone.

Step, question, wonder, give the forgotten deadly woe.

Election Coming Up

Upheaval is imminent that next Friday's election concerns them as much as the Freshman Class. Student representatives to the Honor Council will be chosen at that time. Freshmen are to pick candidates for three offices, their present representative to the S.O.A., the G.S.C. and for the Honor Council representative who is to get them.
