NEW REGIME SHOWS PROMISE

A new Governor of Georgia has been elected, a new board of Regents has been appointed, Dr. Pittman has been reappointed to his post, and it is expected that the new regime will materially aid, and not impede, the progress of education in Georgia.

Everyone is familiar with the series of events which precipitated Georgia into the nation's spotlight and caused one of the stormiest political fights in our history. Yet, political uproar also brought unfavorable publicity to the University System of Georgia and caused it to be investigated by a Federal Senate committee. The trustees were abruptly asked from their responsible positions, a Board of Regents was shuffled around, a handful of playing cards, and general chaos resulted.

Today we feel slightly more secure about our educational future because several steps have been taken this week toward restoration of the University system. Eliza Arnold has appointed a new Board of Regents and they have been approved to take over the control of the university. Many of these men served before and are thoroughly familiar with their responsibilities. Marion Smith, prominent Atlanta attorney, has been elected by board of trustees to chair the board (Continued on Page Three).

FROM AN EDITOR'S NOTES

The War Bond Scholarship committee has thought up a new idea with its faces of Hirohite, Mussolini, and Hitler. It certainly should be lots of fun which stands on those hearing students adorning the bulletin boards. The Sports Club is placing the stamps at an easily accessible place, the Counsellor, that will be used every time you receive change. Let's see which dormitory will get a new idea with its faces of Hirohite, Mussolini, and Hitler.

And still more cries for poems. It was very
difficult to keep the manuscript. When only
one poem is turned in during the

more that there would come in.
You do not wish to turn in the

Sports Club Met At House-in-Woods

The Sports Club met Tuesday at Hous-in-the-Woods. President Mar- thel Adams called for the meeting and the Club's project for the Infantile Paralysis campaign. Funds are now being collected for the campaign from every student on campus, and many from the faculty as well. Please give your support in this drive; all contributions are gratefully accepted. These funds will be sent to the National Infantile Paralysis Head- quarters from which the nation's attempt to wipe out this deadly disease is being prosecuted.

The deepest regret is that this column hereby withdraws its Sports Queen of the Week feature. We can't have a Sports Queen until we have some players; so it will have to wait.

Sports Club plans Garden For Victory

The Sports Club of G.R.W. will attempt to have a Victory Garden next year. Squirreis and bikes, Pres. Adams put the word for the before the members of the Council at their meeting Tuesday, they were met with enthusiastic approval.

The Sports Club will plant vegetables as corn, beans, peas, turnips, tomatoes, and many others. A few rows in the garden will be just for the feather and variety. Any member of the Club may help with the garden, but it is hoped that all will lend a hand to assure the success of this project.

Plans are now being formulated to secure a patch of land on campus. Many of the members of the Sports Council are in charge of them and their own groups, but these interested students will help along with others who are willing. This effort will not be an overwhelming success. The plans are in skeleton form but are being called in, and appointments are being made to discuss the garden. They will then submit the opinions to the Council at its meeting on Tuesday.

Senator's Strive Against The Exercise For Energy

Rutherford Hall is a quite place. Until 11:00, then the Knock, knock sound left. "Go away. Go away!" were the words the Senator had to endure that night. He was forced to leave his bed and go out on the balcony to investigate. When he got there, he saw two men standing on the roof. One of them was smoking a cigarette while the other was playing a guitar. The Senator was surprised by their presence, but he didn't want to become involved. He turned around and walked back into his room. The next morning, he found that his bed was, in fact, ripped out. He was furious and immediately called the authorities. The police were able to track down the two men and they were arrested for their crimes. The Senator was relieved and he continued to live a peaceful life in Rutherford Hall.
