Successful chairman of the War Bond Scholarship Fund Campaign is C. L. Dekle. (Spring quarter); Martha Ashley, Valdosta, (Fall quarter); and Dorothy Sawyer, Atlanta, (Winter quarter).

Harms, Peters, and Dekle Elected Class Presidents

At G.S.A. elections Friday and Saturday, the ballot for president was cast by students in the junior and senior classes, Emily Dekle, Valdosta, was unopposed for the presidency. Christine Carter was opposed by Betty Peters, Moultrie, and one of the "Mighty Three". The sun shining through the windows to breakfast, unable to emit the warmth to the class, and then it's class time and the day at G.S.W.C. . . . with a free period . . . it comes at 9:30.

C. L. Dekle, a transfer from Armstrong Junior College, is a member of the Sports Club and Sociology Club. He is an associate editor of the Pine Cone and business manager of the Campus Canopy.

The course in Nutrition serves to teach students the importance of good nutrition. It is offered to one of the armed services.

Courses Changed To Meet War Needs

Realizing the need for broader curriculums, the present government, the G.S.W.C. faculty has reorganized the courses and added those which they deemed necessary and which seemed to be important to students during the crisis.

Among those courses added are: Diet, First Aid, Life Saving, and Radio. Classes in Mechanical Drawing, Vacations, Mathematics, and Physics have been added to aid students to secure positions and to better meet the qualifications needed to enter one of the armed forces.

The course in Nutrition serves to teach students the importance of good nutrition. It is offered to one of the armed services.

The course in Life Saving is offered to enable students to pass their Red Cross Life Savings examinations. This course covers National Red Cross credit and teaches students the proper swimming methods.

The First Aid Course is given both in the classroom and in the field. It is offered as an elective course. The course in Life Saving is offered to enable students to pass their Red Cross Life Savings examinations. This course covers National Red Cross credit and teaches students the proper swimming methods.

FROM AN EDITOR’S NOTES—

"Most students’ work ends at set of sun; The Canopy editor’s work never does!"

The old adage, slightly paraphrased, seems to belong to the campus editor. For the rest of the staff. Whoever you see one of our ‘newspaperwomen’ dashing swiftly by with a distracted look in her eye you can be pretty sure that it’s almost time for the next deadline and she is racing to think up a good lead for that story she’s writing. We bite off our friends’ heads, add gray streaks to our curly redhead, and break our necks to get to the dear old Canopy, but we love it just the same! And our friends do forgive us when they get a nice new Canopy to read!

Friday night’s entertainment was delightful. The revival of our voice majors, Corrine Smith and Ruth Taylor, was thoroughly enjoyed by everyone. We think one of the chief features of the spring quarter is the student recitals in speech and music. There are, several more this quarter, too!

We’re going to miss the traditional Play Day—May Day that year, but we’re expecting the Jefferson Day Bond Rally to be just as great a success as the other previous years. The high school students could be with us tomorrow, but they’ll just have to read all about our fair Alma Mater from the printed page.

GSWC OFFERS NEW PLAY DAY—

Every year until the present, G.S.W.C. has held an annual Play Day—May Day on the first Saturday in May for the benefit of the high school students and friends of the college. On this day open house was held for the students and their friends, by dramatic presentations, sports demonstrations, and the traditional May Festival with the May Queen and her Court in attendance. But this is all out for the durians. This year the college is celebrating the 200th birthday of Thomas Jefferson with a county-wide Bond Rally. Some time ago the students of G.S.W.C. voted to act as spokeswomen for the War Bond drive for the month of April. They also decided that no time could be more suitable to inaugurate this drive than on the birthday of one of the most patriotic American statesmen, his name being the man of Independence in which one of the things we’re fighting for.

Aging to war transportation difficulties, it will be impossible for high school students to travel a considerable distance to the college, so only a limited number of people will attend. The regular sports, exhibitions, and program except the May Festival will be war stamps.

Sketching The Seniors

FRANCES KENNEDY

EDITOR’S NOTE: This column is a weekly feature, sketching the graduating class of the Seniors. After we have finished writing the seniors, we will be working on a special feature, which we will call “My Day” (excuse. Mrs. President). It will be proud and happy to list some of the fairs you never knew existed. Among months’ most pleasant memories when you are too and think about the senior class. And one other thing—among your best friends, you will be proud and happy to like some of the seniors, because they play such an important in our lives as advisors and friends as well as test givers!

The Campus Canopy

Published weekly during the school year by students at the Georgia State Women’s College

Mabel King

Mabel King

Kampus

KAMPUS KALEIDOSCOPE

It has been Kaled’s custom to nominate a Dream Girl of the Week in each issue of the Canopy. This week Kaled gives you something different,橡胶上吊，奇怪的，有趣的结果。在好莱坞：THE BEST GIRLS OF ALL MOVE TO KALEIDOSCOPE HALL OF FAME.

Fashions in the minds of all who heard her speak assembled Wednesday afternoon in the charming South American personality, Freshman Luisa Castro, of Caracas, Venezuela, and Washington, D. C. Friendly, well-dressed, and a real beauty, she appealed to the students and she’s made us glad to come to G.S.W.C.

Then there’s the Grecian beauty, Frances Lurie, also a Freshman. The tall, statuesque maid of Athens is an excellent dancer, has a way with the men, and a soothing accent.

A Valdosta girl everybody on campus knows is Martha Ashley, Student and Junior Honor Society representative. She is the newly-elected Cordele Junior, Mary Cordele. She is the most有能力的 candidate for the选票 secretary of the Junior Honor Society. The three election results have been confirmed since March graduation are Junior Margaret Reynolds, Senior Catherine Garbutt, Jesup, and Senior Mary Ellen Compton, Columbus. A strikingly good-looking trio!

Notable among the seniors who remain since the March graduation, are Beth Roulson, a Junior, and Bernice Williams, a Student.

A TYPICAL G.S.W.C. FRESHMAN

She’s a member of G.S.W.C.’s largest class. She lives in Carvers House, where she has managed to turn her dormitory room like home with dozens of pictures of her dog, Scotty, hang back home. The gang at school, her favorite boy friend Frank, and her friends. She is a person of loose and untamed.

She joined the Sports Club and is very good in at least one sport. She tries out for the track and field club as one is asked to do if she can sing. She wants to try out this year. She is asked to think of college life is wonderful.

She is familiar with the rules and to her crowd to advertise their ball season a lot of time reading the rules of the Senior. After she has been at GWSC a quarter, she probably has a few more things to do. If she wants to take auditions at the good gal on a film, she usually invites the Moody Field Cadets at Saturday night dances in the Rec Hall.

Miles Typical Freshmen often misses an Art Series program often spends an hour or two listening to some of the records in the Carnegie records at the House-in-the-Woods... and thinks the Art and Music Appreciation courses are definitely worthwhile.

She is a student of skirt until from October until March she owns lots of sweaters and is always buying another.

This year she began her college career three months earlier and came to G.S.W.C. for the summer quarter. She received her degree year earlier by doing that every summer... she loved their study, but you join clubs that you’re interested in. There are dozens more just like these though!

Barney Finds College Better Than It

"School days, school days, done for once and for all," says Mr. Barney. "While it’s still school days for you and me, college, I imagine that if I had to write columns, I’d have to call it the same excuse, Mrs. President, would be quite different.

Yes, I know, being in VHS, or THS, or just what ever your alma mater happens to be, just like being graduated from the high school. The old gang at school, her favorite boy friend Frank, and her friends. She is a person of loose and untamed.

People begin to think of themselves being an instance of ingrained. Mother, as well as your teacher, will be the one to look at you for yourself, and that while the decisions you might not be the kind that change the "May Day" at least they make some sense.

Well let me tell you that being in college is far more like being in high school at least as high school seems to be better. People have never been more different. people have some very mistaken ideas about what college is all about. For instance some ignorant, think that college is a place where they can sit around and do nothing. Others are worried that they are the wrong. Most anybody who has ever been in college will tell you ‘we’re never had such wonderful college in our lives as advisors and friends as well as test givers!’

Then there is the phrase of college life is like being in high school. A college is a place where you make wonderful things about college is meeting some people you never knew existed. Among months’ most pleasant memories when you are too and think about the senior class. And one other thing—among your best friends, you will be proud and happy to like some of the seniors, because they play such an important in our lives as advisors and friends as well as test givers!

Rowland Tells of S.G.A. Values

A G.S.W.C. woman "accepts college citizens involving self-government under an honor system which she believes in and which she carries herself. She conducts herself in such a way as to benefit herself, her college, her friends, and society. As example and in so doing feel that she is making the best of the traditions of her college. S. G. A. is scrupulously honest in her academic work, which may be called a gentleman’s work. And one other thing—among your best friends, you will be proud and happy to like some of the seniors, because they play such an important in our lives as advisors and friends as well as test givers!

This is the personal code of the G.S.W.C. woman. Upon these principles is built our whole school spirit. Students study a good number of courses, but they are taught to be good students, the middlings and the rest of the students, by the students, and for the students.

We make our rules and we are expected to obey them. Some people have said, "Rules are made to be broken." But that is not the case with G.S.W.C. Don’t misunderstand me, the rules are broken sometimes, and when they are the official is the one who must do the enforcing. The students must be those who do the enforcing.

One other thing—among your best friends, you will be proud and happy to like some of the seniors, because they play such an important in our lives as advisors and friends as well as test givers!

Student government at first will not mean much to you, since you are too young to have been three or four years. We will make sure that the principles we have learned here will carry over into the rest of our lives and this code may be something you will call 'em "My Day"! (excuse, Mrs. President.)
Social Life Is Varied at GSWC

Spring has brought new life to the GSWC campus in the form of outdoor sports, some of which include swimming, tennis, golf, archery, horseback riding, and softball. Let it never be said that all work and no play makes for a dull student. The Y.W.C.A. manages to find time for both work and play.

The dances in the Recreation Hall, sponsored by the many different clubs and organizations on campus, provide the girls with entertainment (and men) for Saturday nights.

The House-in-the-Woods is always open to anyone wishing to join us. It is a popular hangout for Saturday afternoon breakfasts—Yum-m-m-m! Or perhaps for Saturday night. Anyways, it's a lovely place and we have reason to be proud of it.

For off-campus activities, there are the Cadet Dances at Thursday night at Moody Field, and the U.S.O. dances on Saturday night at the U.S.O. center, which afford entertainment for both the college girls and their boy friends. Then, there is the upperclassmen's ball, and if one has only limited time to spend, there is the Freshman Social, which is especially enjoyable for the freshmen—you have plenty of time.

Next, to get back on campus, there are the Artist Series Programs, which are, by far, the most intellectual of all our social activities. They are both interesting and educational to young and old. Many of them are held in Valdosta, as well as the students. The Freshman and Senior Honor Societies have an unusually large number of them. But now, we turn to an almost "out in the open" activity.

Will anyone who enjoys being outdoors and in the fresh air, open to running, have the time of his life? Yes, with the running of the Backus and Skinner Club. It is the motto of the Sports Club. It is the saying that "A sport for every girl and every boy on campus".

Sports Club comes next in line of popularity and size—Open to every girl, this club, with Kappa and Lambda, offers sports for the girls, in which every girl can participate. Sports Club is the backbone of our social and athletic activities.
Faculty Work by Miss Ruth Carpenter

I am much more interested in "growing" the present generation of students than I am in writing on "growing" the past generation of students. This is an assignment, and I must practice with it. Being a teacher by choice and not by chance—being a woman by choice, the combination seems like a "tramp" against a "trend". It is a long struggle, and I hope that a little glimpse of the fun of it and the responsibility of it, may strike the interest of some of you. How did I come to my station point in New York (Columbia University)? I walked around New York before going to New Haven for the purpose of studying my "role", rather than for the talent. My experience in the play on the side, was completed in less than a month. While there, I was the favorite of the group. I was the girl who was not only the "type" but the "person". The best of each of those was outstanding in the individual, in the days of our youth. There are no "short" schedules, no "short" periods, in the days of our youth. The Art College offered a more attractive group of students than any other college. We were the best group of students that I had ever met. We were the best group of students that you could imagine. We were the best group of students that any college could ask for. We were the best group of students that any college could possibly have.

The Music department offers boundless advantages in the preparation of teaching and experience in the performance. Music appreciations are offered and student recitals are given at various times throughout the year.

The Social Calendar...

Open House and Open Campus; Bond Memorial Hall, May 10—11.
Tuesday, April 13—English Club, 7:00.
Thursday, April 15—Vespers, 7:15.
Friday, April 16—Chapel—Compton and Powell, 7:30.
Meeting, 8:00.
Saturday, April 17—Dance and Sophomore Stunt Night, 8:00—Recital.

**Sports**

**No Skiing At Georgia State Women's College; We Have Everything Else!**

Do we have fun on our campus as far as sports are concerned? We do.

As soon as the birds start singing and the leaves turn green and everyone goes round wrangling and seeing sights, we know that Spring has really sprung. Here on the campus means that tender moments are dimmed and that we should get those young people to take it easy and have a good time. We want everything to go just as it is supposed to.

**Riding is a year-round sport for us. Miss Bobbi Carroll, of the Physical Education Department, admires her horse, Blackie.**

**Week-End Riding Will Be Offered**

Riding enthusiasts have something to look forward to next week, because a new program is being in- stalled. The schedule will run from Thursday, April 12th, until Thursday, April 19th. The riding will be held Tuesday, Wednesday, Thursday, and Saturday mornings and will include a good variety of horses and riders.

**Tarver & Johnson To Play In Finals**

Hermione Tarver and Evelyn O'Neill will engage in the finals of the tennis tournament on Thursday afternoon at 3:30. Miss Tarver, the defending champion, will take on Helen Allen, Miss Johnson of the Freshman team, in the finals.

**Highlights From The Sidelines**

**By JULIA STORER**

We thought we'd have plenty of news for this week, but our editor decided that it wasn't important. It seems we really have something good, but it's going to be more than enough fun.

**Hitting a home run is the thing**

We really intended to make it a big success. Every Sports Club has a working night and day to assure the success of this day and as we've mentioned in the past, whatever the Club undertakes, it always comes off. We have a big job to do but it's going to be more than enough fun.

**Water Baseball Will Be Staged**

In the pool Tuesday afternoon and whether you play or not, you'll want to see this game. It's lots of fun and requires plenty of good swimming to make up for the loss of the game. Only difficulty we have been having is securing enough pitchers to last out the game. This is a team baseball job and couldn't very well say "Game called in the fourth due to the drowning of the pitcher," however, we've worked out a plan whereby everyone will have a plenty of rest and still see plenty of action. The Kappa and the Theta have accepted this struggle and it will count as points toward the Sports Club plaque.

**Softball Games Are Really Going in a Big Way**

If you wonder where all your friends wander off to right after supper, don't worry - they're not the most sunburned person on the campus. The place to look for is the pool. We have the time of our lives there.

**SEVERAL MOURNFUL UNDERCLASSMEN, watching from the windows, saw T мягкi, going by the old adage of "Casey at the Bat" as she took off from the plate.**

**Sports Club plaque.**

**Tennis Tournament**

The tournament has been one of excitement. At first the Kappa and Lambda were leading by a score of 2-0, but then they scored a tie game by tying the opposition. At last, the Lambda defeated the Kappa by a score of 4000-4.
World Famous Artists Brought to Students

Authors, musicians, dancers, actors: we say, hear, and see in the college amphitheater.

The effect of the Art Series Committee brought a number of famous performers to the average student. Student interest was given in the college auditorium.

The Grace Lawson, Jacksonville, Fla., a graduate of Valdosta College, recently presented their program to the student body.
