Junior Miss Slated For Mon., Feb. 2
Cast Will Include Original Broadway Members

It has been announced by the Artistic Committee Tuesday that Junior Miss Valdosta will be presented at the annual dance next February 12. Members of the original Broadway cast will be the star attraction at the drama here.

Of the programs listed for this year are "Tetley-Kardos," "Ostara Dancers," and "Spanish interpretation." Other Agres Wolff will preside at the meeting. Jackle Talton is now one of the members of the Atlanta University at the Georgia State Women's College.

There was no admission, but contributions were received at the meeting. The meeting was a call to name new members.

Smith Appoints Talton, Hutcheson to Yearbook Advertising Staff
Georgia State Business Ed. has appointed two of its students to its staff. John Talton, who has been named Business Manager, and Betty Hutcheson, who has been named Advertising Manager.

Smith, Business Ed. director, said that the two students have been named to these positions because of their outstanding work during the past session. Mr. Smith said that he was pleased with the selection of Talton and Hutcheson for these important positions.

The selection of Talton and Hutcheson demonstrates the school's commitment to providing students with opportunities to develop their skills and contribute to the success of the college's advertising efforts.

Ball Practices Begins With Bang

Now that we're all recovered from those wonderful Christmas Dickens' days, we should get back to work. But as you all know, "all work and no play makes Jack a dull boy," so basketball and football will continue on a more light-hearted note as a means of getting a little play in.

Practices began last Wednesday with quite a few enthusiastic faculty members in attendance. The first practice will be under way next Wednesday at 4:15. With Mr. L. B. Simmons as coach, the Lambdas will be looking to establish a system. The team is not only a new one but is formed in the spirit of last quarter's meetings.

Almost everyone has played basketball and quite a few freshmen players will be on hand to get in shape. So we expect quite a few more Monday and Wednesday. And you upperclassmen men shouldn't let the fresher get away from you. It takes time and work to develop a team, and you have your coaches to help you.

Basketball practices got under way last Wednesday in the new gymnasium. Some of the boys are in the dark as to whether they have basketball or football. This is something that we are all looking forward to. The Lambdas and Kappas will be meeting on Monday and Wednesday at 4:15 to play basketball.

We're all present and accounted for except those lucky gals who也算是 the Christmas holiday (didn't NEA and JOYCE HARRELL have two of the lucky ones. (It's a pity)

And there will be more wedding bells in the future. Have you gazed upon those beautiful sparklers all those gals have secured? Peggy Pugh bought one in a diamond. But BETSY MARKERT, ANNE REESE, and ANNE MARY have something that will hold them by a stronger bond. ANNE MARY has her "Third finger, left hand" encircled... definitely!!!

So let's all work to increase our club members, B. T. get together with D. M. during the Christmas holidays. Well, lovely girls, there's hope for all. Don't give up.

WAGS

Who is it that redheaded VERAs with a ring from CHUCK. (But it wasn't SMITTY who gave her the ring.)

Tawn summoned to me that there's another torch bear case wandering around since BETTYE BOWEN cast lots for her LT. LIZ DAILY. The same thing happened to DOROTHY POWELL's room and help yourself.

The Fleet was in Christmas when BILLY PENDLETON came home, and who was the first at the door? It happened to be MIESE ZOEMIE LUS S.

One of the best sentiments this year is how PERSONAL TEARDROPS: KIT AMOS is not a "sad sack" since her "man of the moment" has shipped out from Moody, but confidentially assured "I'll be back soon."

Gah! If you want to set your gazers on the BEST of best-looking, most-photogenic, most-thought-of, and most-thought-of-smartest clubs... this is the time to say flowers give you that certain effect. (Hank, you really take Dr. Reade's advice... don't you?)

Imagine "CYCLONE" MARTIN'S surprise the other afternoon when she received a corsage of flowers, a ring from CHARLOTTE GOODWIN, and CAROLYN STAFF all at once. "Who's the sender?" she asked, and "where?"

As to the song "Always" seems to have captured Kitty's heart, too. Dancing? Maybe—no.

I'm sure that Kitty longevity that goes with "Sergeants" will be good enough to go on for another year. I hope it will be enough to hold off her "Third finger, left hand" encircled... definitely!!!

The Premiere (I think) of a "New Club" is the "Sergeant" Club. By the way, who are those little strings of your ordure.

Oh, she's making eyes at him in history class. Our new and improved "Sergeant" is none other than BOBBY SNOW. (Jeepers, where'd you get those pegs, Bobby??)

One of our profiles for this week is the story of one of the most dignified moments, "Kitty's". Kitty's personality is the type that can make itself known instantly, but, with an unfolding is the type that is almost aggressive. She can be seen at first glance, because really, at the same time, she is the type that can be seen as gay and mischievous as anyone.

As to the song "Always" seems to have captured Kitty's heart, too. Dancing? Maybe—no.

Aubrey Speaks to Math-Science Club

Mary Creech, president, led the opening remarks when the Math-Science Club last met. Among the things discussed were the Weeds. Plans for the dance Saturday night were also discussed. A dance committee was appointed, plans were made for the furtherance of the activities of the Math-Science Club, and committees for the club were named.

The program was under the supervision of the Mathematics division, who hosted the meeting for Aubrey, instructor in voice, to the group. He then described the correlation between an ability in music and aptitude in mathematics. As examples of his topic, he used personal experiences which tended to make the discussion more interesting. Properties of sound waves, touch, and understanding were mentioned.

At the close of the program, members of the math division second refreshed. Carrying over the note was the fact that the sandwich was cut in geometrical designs.

L. R. C. MEETS IN ADVISOR'S OFFICE

The International Relations Club met Tuesday night, January 9, in Miss Price's office.

For their project of the quarter, the group selected a department of Law Practice. They hope to familiarize every one with the actual subject, ships. Pamphlets concerning these, particularly a twenty-page handout, were distributed.

There are sports clothes galore to don. You look well in black, and white at home. You have a lot of new things to keep up with a boat-necked sweater and a bobby jacket. With a woolen sweater and you're about ready for a tug of war with the breezes.

And for skating, roller skating or ice skating, not matter—there's nothing better than a safety flared skirt, a woolen sweater, and a white helmet.

When a long day's over then's some time to sit and have a good time, a good time. Perhaps to go to the movies. Some of my favorites are "The Taramie Train," "Hostess with the Mostest," and "Rhapsody in Blue." And for a good time it's impossible to decide which one to see. Some of the others that I've seen are "Bicycle Thieves," "Hostess with the Mostest," and "The Taramie Train." And for a good time it's impossible to decide which one to see.

As examples of his topic, he used personal experiences which tended to make the discussion more interesting. Properties of sound waves, touch, and understanding were mentioned.

deprecated a coat box for a place where it is more comfortable and better passed on a cold winter's day. The type of coat boxston't went to twenty minutes to read some article from the pamphlet. Each member made a three minute talk on the pamphlet. Some of the pamphlets were about one person's story of his or her experiences with these womanly "veils" of fashion, and about the adventure of the ship.
