FALL FLASHBACKS!!

SMITH, STRoud EDIT 40 TINE CONE

At the first of the year Georgia Smith and Kitty Stroud were named editors for the Rock and Huskin Club on December 13th. Each part in the huge cast was well done and the unusually large audience seemed to enjoy every minute of it.

The play production club presented with the Sock and Buskin Club's production of "Romeo and Juliet," which was designed by Irving Morrow. The scenery was made by Mary Luers and the costumes by Mrs. Brenda Minor and Mary Lou Reuther. The cast included Kitty Stroud in the lead role, the Prince, Alan Turnbough as Paris, and is at present teaching two departments of Economics and Political Science. W. Cl in September, 1945, as director of Publicity and Promotion. His work will not represent a new field for he has put to work. They are both town girls and seniors.

They were also glad to welcome at this time two newcomers. Miss Dorothy Averill of Oldenburg, New York, is riding instructor this year. In charge of the social activities is Mrs. Mary Schonyers, formerly connected with Emory Junior College here.

SENIOR CLASS PRESENTS CARNIVAL OCTOBER 21st

Here's another headline that brings back memories. "This time it's only a little more than a year ago," says the fall carnival of a year ago, "but it's still exciting." The Sun Dance, held at the end the Senior Class really went places and did something, "Wasn't that fun?" With the old crowd and the new faces, the fun was virtually endless. Nancy Story in the lead the Senior Class really went places and did something, "Wasn't that fun?" To show their appreciation the Frenchmen decided turn about and entertain the Americans. The program was arranged into three groups, each depicting a side of the character of Americans from the United States toward a neglect of geography. The function of geography is the interpretation of human life in terms of the natural setting and the earth's resources. The dangers are still as great as they were during war-time, but with the war against Germany and Japan.. The gallant Chapter provides one of the series which are to be discussed at following meetings for the benefit of the volunteers who go "giving your dimes."

"Romeo and Juliet," Shakespeare's immortal tragedy, was presented to an enthusiastic audience of students and Vedastons on Monday evening and June 7th, the S. W. C. auditorium.

A production of the National Catholic Student Artists and the American Student Artists, and the American Student Artists, and the American Student Artists, made a convincing Juliet and Romeo proved a truly heroic Romeo. Justine Johnson, who played the role of Juliet, and John R. Oates, who played the role of Romeo, were the strong supporting cast of superb actors and actresses that made the play a success.

The production was directed and produced by Paul M. Watson, presented as a feature of the G. S. C.'s Student Artist Series and an extension to the benefit of the Varsity Carrier, which was presented at the close of the meeting.

Martin Urges More Graduate Work

Why be mediocre? I'll grant that it's something in the air, and it's no fault of the students. A B.S. degree is not anything to be scoffed at but there is something higher in life if you are able to go after it, and mainly, if you're willing.

The Honor Societies on campus are willing to do anything for any student that wants to go on and do graduate work in some University or accredited college that OFFERS graduate work. Students at G. S. W. C. will teach when they have taken their Bachelor's degree. If the state of Georgiia, there is the increasing opportunity for good teaching jobs, but as to date, there is more to be gained by further education. We can give you information that you will need, or we can secure this information for you.

The Honor Societies have not made a complete survey of schools that offer graduate work, but if you are interested in getting a better education than the A.B. offers, get in touch with me, Edith Collins, or "Dottie" Davis. We can give you information that you will need, or we can secure this information for you.

Governor Arnall is doing his best to have teachers' pay raised in this state, and if I know Arnall, he will probably accomplish his task. Looking at your profession from an educational standpoint, there is more to be gained by further education. Looking at your profession from an educational standpoint, there is an entire world to be gained. So much to be gained!

This means that you, student of G. S. W. C., will be the ideal student for graduate work. Yes, marriage is a wonderful institution, but education is too. The more education you get, the more you will know about the world as a whole, if each nation insists on keeping its own power, another war might come in. This thought should sober the minds of all of us. It's up to each one of us!}

Collins Discusses U. N. O.

This week the first meeting of the new United Nations Organization got under way in London to make an attempt to keep the peace. Such problems as the use of the atomic bomb and the affairs of Iran and Persia serve to make this opening meeting one of grave importance.

As these tensions of the world centered on this meeting, the minds of the people go back to a similar meeting shortly after the First World War. Then it was that the world, given hope by the League of Nations, was to witness the eradication of war by the League of Nations. Then, as now, people were saying, "This must not be another world war, but now the threat is more serious than it was then.

At that time the threat of another war meant millions of men killed and a much property destroyed, but now, with the atomic bomb as a source of power, another war might mean complete destruction.

This thought should sober the minds of all delegates to this opening meeting in London. It should complete their A.B. 's or B.S. 's, it is necessary to see that this time an organization of nations can and must work. Every nation there must be a teaching job in our state, without a master's degree, is a POOR job. And as the war is now supposedly over, teachers will be returning to their former jobs.

Yes, if you get somewhere in the teaching world it's definitely going to take graduate work. If you are one of the many who have financial worries, then scholarships and fellowships will be your prime interest.

As yet, the Honor Societies have not made a complete survey of schools that offer graduate work, but if you are interested in getting a better education than the A.B. offers, get in touch with me, Edith Collins, or "Dottie" Davis. We can give you information that you will need, or we can secure this information for you.

TO THE EDITOR

Dear Editor:

Perhaps I'm speaking out of turn but it seems to me that before we criticize the behavior of High School and Grammar School students at performances here we had better improve that of ourselves.

The behavior of some of our own students at the performance of "Romeo and Juliet" was embarrassing to say the least. I think that by the time people have some weight and a sense of responsibility enough to let the person next to us or behind us understand the Artist Series and other programs, whether or not we are enjoying it.

In the past we have been very good about this, so I don't think we ought to ignore our reputation now.

Sincerely yours,

A Disappointed Student

Note from M.D.: At any time any student wishes a privilege published, turn it in to me and I will do so. If for any reason your idea or group might not be published, these will be checked on and the truth behind the cause will be printed with the letter just put these in my mail box before noon Wednesday.
SOLDIER'S WIFE

Robert Barnes and Polly Adair seem to have more than just a casual hit with "Soldier's Wife." The play is produced from the stage of the Valdosta High School auditorium January 15, for one performance with a distinguished Broadway cast.

"Soldier's Wife," that smash comedy hit, is scheduled to come to Valdosta for a one night performance Tuesday, January 15. It is sponsored by the Student Artist Series but will be presented in the Valdosta High School Auditorium.

Another hit by Rose Franken, author of "Claudia," there is nothing depressing or sordid about this timely play, for it is loaded with Americanism and tender. It is sponsored by the Stu-

Alliance, O — (1, P.) — Mount Union College has inaugurated an extensive service program for the Methodist churches of Northwestern Ohio. The project deals on the one hand with the training of leaders and on the other with the solving of problems as they exist in the local churches.

In order to train leaders, ceremonies for leadership in their home churches when they return, courses have been added to the curriculum in Rural Sociology, Urban Sociology, Problems of Youth, Problems of Education, and Home Missions in America. The course offered in these courses already offered in religion and the sociological sciences.

The work in the field will deal with the problems of churches, particularly those that have arisen from shifts in population during the war period. After extensive research and analysis, organizations and programs will be en-

The column this week instead of Jean Rowe will be writing for the university. It will interest the students of G. S. W. C. to see what other schools are doing and to compare these things with the activities on this campus.

POLIO DRIVE NOW ON!!!!!

As you probably already know, the "Sports Club" is sponsoring the Polio Drive in Lowndes County. Each council member was given boxes to put in different stores in town and some cards to give to the students here. Don't put those cards away and forget them or accidentally drop them in the trash!! Just put as much as you can in each of the slots and later in the week someone will be around to take them up.

Incidentally, you might get a free pass to the show. Contributions will be taken up after each show and someone will be needed to do this. Listen out for the announcement in the dining hall and be ready.

NEWS LETTER!!!!!

The "News Letter" which you've probably already heard about, is a booklet put out by the Georgia Athletic Federation at College Women. This booklet contains information from all schools which are members. G. W. C. W. was chosen to edit the first letter.

The Cabinet of the G. A. F. C. W. met here on campus in November and made their plans for the year. At this time the date April 6th was set as the time for the Spring Convention which is to be held at Wesleyan College in Macon.

SPORTS PRACTICE BEGINS!!!!!!

The first sports practice for Winter Quarter will begin Monday. The sports offered this quarter are basketball and volleyball. Two courts are provided for each of these, so there will be plenty of room for everybody. Come whether you are a good player or not. There will be a beginners team and an advanced team, so we'll be seeing you at 4:15 Monday.

SPORTS CALENDARS!!!!!!

Sports calendars are now being made for the next quarter. They will be given out in a few days so when you get yours be sure and look it up in some safe place so you can read your practices. Remember that you will have to fifty practices this year so you will want to keep up with them!!

Sociology Club to Sponsor Dance

As one of the projects for the year, the Sociology Club has bought a dozen pencil sharpeners. These sharpeners have been placed in the halls and various class rooms throughout the administration building. The Sociology Club is having the first dance of the Winter Quarter Saturday night, January 25th.

The club will not have its usual "Soirée" this month but will have a call meeting later and that will be announced by the president, Beve Williams.

He tilted
Her lovely head
Toward him
And bent over
Her expectant
Mouth.
He gazed intently...
"I'm going to have to pull
That tooth."
