Happy Birthday G. S. W. C.!

This month marks the 35th anniversary of the Georgia State Woman's College. As comfor to the students and faculty members together and to the college. An honor conferred on one student is regarded with pride by all, and one's student's magnifice is conformed with all her schoolmates' sympathy.

Since 1913 has seen her students gradually change their attitude towards education, in their respect to the role of women, and in their outlook on life. She has watched students react to two World Wars, a depression, prohibition, Woman Suffrage, and the Arnnal-Talmadge Thompson triangle. She has seen them progress from Gibson Girls to Flappers to Glamour Girls to WACS and back to Gibson Girls. (In other words, from long skirts to long hair to short to long again to long.)

Although the people, the customs, the events, the fads and the fashions have changed, the underlying spirit of GSWC has remained the same: guarded and nourished by each new class. This spirit is friendliness and it typifies GSWC and its students, no matter how slightly acquainted, seldom turns over in his grave.

This week-end Bobbie Lee is wearing a gift that Jimmie gave her. "B. B." was given some pearls, too, as was Margaret Traynham. Martha Jackson is thirty proud of the silk scarf that J. Whitley gave her, especially since they are her first pieces.

Girl Campused for Waving
To A Young Man — In 1926

So you think GSWC is pretty strict huh? Well (as we users of trite expressions say) you ain't heard nuthin' yet!

When, the fashion slaves, have almost been beaten again! This time a real week-end — almost tripping us in the head and making the fashion designers have us wearing fashion creations — that was a very little while ago we would have destroyed, including hemlines down below the calf. Why? It is predicted that next year, if things keep going we'll have 50 fashion designers don't have a change of heart, they will cover EVERYTHING!

Grandma Jones never saw anything as modern as she does now. This year, you know that the "gentleman caller" goes out for three hours and has to be present. All the advice I can give you is to look at your guy looks at you from head to toe and realize that if your "gentleman caller" up — wear "the new look" with grace and poise. In this woman, you'll be better for the future.

Well, TV girls, it seems that we have the so-called "out of sight, out of mind": but it seems to me that "gentlemen callers" in the dormitory, the residence halls, and the rest of the place to borrow something and have to get permission from your resident, head to borrow something and have it returned. (And incidentally, a court offense.)

Our friends that please many a girl, no smoking, no alarm clocks, no playing cards, no playing cards (what did they do without bridge?), no mailing letters in town, no hanging boxes in windows (you were sent to court for that), no talking, speaking, or otherwise relating to any men, and no borrowing! You had to be in the dormitory from your resident, head to borrow something and have it returned. (And incidentally, a court offense.)

Natural, signing out was a very restricted privilege...the young men had to sign out to visit in other departments of the house...

Long about 1928 Freshmen and Sophomores were allowed to receive "dream letters" in the dormitory parlor if they had written permission from their parents to do so, and, of course, a chaperone had to be present.

League Studies
Democratic Party

Until 1947 few people in Georgia cared who ran the accompanying elections have leaked a hole in the voters' complacency. Because of the bill, all the laws which have regulated Primaries for over 50 years would have been removed and the Primaries governed only by party rules. Now increasing numbers of people are asking not only who controls this party but how it is. Democratic Party in Georgia organized and does it serve the will of the people?

Democratic Party in Georgia believing that a study of the present Democratic Party organization will furnish some of the needed information, The League of Women Voters investigated and discussed the organization and present condition of the Democratic Party in Georgia, with specific reference to the organizations in their own home counties, at their meeting Wednesday night, January 14, and the League of Women Voters by contacting Misses Edith Jones or Jean Usher.
