Strange Malady

Strikes Students

There seems to be a disease, particularly prevalent among Freshmen and Sophomores, which affects college students about as regularly as Spring Fever. It is commonly called Transferitis. The symptoms include such subtle signs as ordering of the disease has not been definitely determined, but it is known to be contagious and to have fatal strikes students at the Georgia.

**By BOBBIE LEE**

Spring fever seems to be a disease known since Cro-Magnon man. At least ten years ago OHWC girls were worrying about it, and I believe here today, why not try their solution?

Attention, girls, if the old Spring fever has gotten you and your feet are bothering you, look! After all, dabbing powder on your nose and anointing lipstick on your mustache requires a lot of effort and in this Spring weather it’s mighty easy to feel that you are right late. But don’t worry, I have a solution for you, that’s guaranteed to pep you up and if you don’t run down right to the pharmacy you may punch this author’s nose.

First, you volunteer to model for the photographer (if you have one of the first two periods free, and can still tolerate torture). Then you gloss over the fact that you are the prettiest model they have had. (That’s what you think!)

The girls around you murmuring something like: "I believe this will be a blue-eyes. You begin thinking— "Why, that’s the green eyes. That’s not my hair. What are they staring for? If I would only stop growing!"

You endure that for about an hour. Then you get tired, and walk across hill, sit down, and look good in the gal’s drawings. Why! Wha—!! What? Ouch, that creature can’t be me! My hair looks like a rat’s nest!! My nose crashed— "I don’t know how to spell! Why? Why, that girl has given me green eyes. She is not like me. Really! Really have green eyes! She is not like me."

You think about that for a while. When you get back, you will put on the look of the day's grand success, and then you will get to the nearest beauty parlor.

They might not have such a bad idea. This spring weather sure does make you lazy. Think their remedy might work for us?

Patient (in psychiatrist’s office): “I work in a fruit packing house. I’m going to have to stay here. If you don’t wear a fruit juice hat, you’d better wash your eyes out. And speak in accents pained. I just ran across a page in a newspaper that got me thinking. It’s driving me crazy!”

The record rainfall experienced at Douglas a few weeks ago (there was a slight drizzle at WC about the same time) made several new entrance requirements necessary at South Georgia College. First, all students must be equipped with gumboots. (Ha! Ha! Ha! They get to Tanner and Proctor Halls!) Second, all students must have some knowledge of rubber. Third, the school must have a bursar. Fourth, the school was also announced that the school plans to wire the Navy Department to send several "PT" boats immediately so that students will have some of traveling between buildings on campus. A delegation of students are drafting plans to change the name of the college to "South Georgia Aquatic College."

A Scotchman had to send an urgent telegram, and not wishing to spend more money than necessary, wrote: "Firewood, 1,000 cords. Scotland is burning. Our dear country is on fire.简直要烧光了。"

The Scotchman who received it immediately decided it was: "Bruce is back. He will burn a ford. He wrecked the bridge in his fight, in fact she is dead."

Suggests Today Appreciation

It’s just an idea, but maybe if we had a course in Today Appreciation with pop quizzes on rainy days, maybe we’d find something as noble as the merits of sculpture or Books o’Fife’s. The next question is "Appreciation? For what?"

And the next answer depends on you, hypotheti-

In, or in order to eliminate confusing pronouns, I might be transported to the heights if I won a free trip to Hollywood—or fell in love—but for all round everyday bread butter containing mine is still in cold storage. Why? Because it’s easier to gripe than applaud, it helps me hide my pet jealousy, and then it’s a habit I’m almost unconscious of possessing.

"We have biscuits, but I’d rather have rolls even though I’m off breads this week."

"There’s a movie on tomorrow night and I have a club meet-

ing, so it’s ‘yawn in boredom—but I’ve got to fix the refreshments—again this quarter?"

"Another assembly program. What in the world this time?"

Passing fashions, probably only one have been wrapped as closely about us this year as our raincoats. And I believe they are really just as useless as mine, which has lost its rainproofness, Raggedness—cost about like a dandy’s golf coat. To draw a timid parallel: something happens—I’m in a bad mood—I blow a fuse.

This appreciation course could have the qualities of the water-proofing method on raincoats. Situ-

ations occur that are more than annoying, but if I have some protection, I don’t mind walking in the rain so much to get where I want to go—and I’d hate to stay at home.

All the trite and bright remarks about college "being the thing," the student might use. In the word "appreciation," for that is what makes the little wheels run, with which we learn new dress styles, books, hobbies, abilities, personalities.

"But why not? Why tomorrow? Why not today? Of course, I know there just is not time today—but tomorrow will be "today" and there still won’t be an extra time.

Tomorrow won’t be in a blue mood; tomorrow I won’t try to fuse with everybody; tomorrow I’ll know my lessons better. Tomorrow will be the day to do something, not to do something. Tomorrow will be the day to help others... yet the old hymn says, “Help somebody TODAY... not tomorrow.”

Tomorrow I’ll be kind to my roommate, won’t talk to her about trying to study. I want to do so much for me. Tomorrow I’ll help her more. Tomorrow I’ll do more of my part in keeping the room straight. Tomorrow I won’t disturb her when she wants to sleep. Tomorrow I just won’t do anything that I wouldn’t want done to me—in fact, tomorrow I’ll live right by the Georgia."

Is Manana Soon Enough?

“Manana, manana...” so goes the popular song. Always manana—always tomorrow. Tomorrow is the day to study, tomorrow; the day to go to parties, make friends with the girl you don’t know so well, tomorrow is the day to do wonders,

But why tomorrow? Why not today? Of course, I know there just is not time today—but tomorrow will be "today" and there still won’t be an extra time.

Tomorrow won’t be in a blue mood; tomorrow I won’t try to fuse with everybody; tomorrow I’ll know my lessons better. Tomorrow will be the day to do something, not to do something. Tomorrow will be the day to help others... yet the old hymn says, “Help somebody TODAY... not tomorrow.”

Tomorrow I’ll be kind to my roommate, won’t talk to her about trying to study. I want to do so much for me. Tomorrow I’ll help her more. Tomorrow I’ll do more of my part in keeping the room straight. Tomorrow I won’t disturb her when she wants to sleep. Tomorrow I just won’t do anything that I wouldn’t want done to me—in fact, tomorrow I’ll live right by the Georgia.

An ideal tomorrow is one in which we would live up to all these resolutions from sunup until sundown and each tomorrow is to be the ideal one. There is only one drawback. Tomorrow is here now, for yesterday’s tomorrow is today, and today right now, is the only time we will have to start living and to live as we have always wanted to live, that now and only now is the time.

England Club

Recordings of poems by Browning, Tennyson, Wordsworth, Millay and others, by Basil Rathbone and other stars, were featured at the English Club's April meeting held Tuesday, April 12. Miss Jo Ann Hamilton and Miss Hulda Jones were in charge of the program. Mr. Ewen spoke about his experiences in China, when he was with the American Field Service. He told of his impressions of the Chinese and of the various aspects of Chinese culture.

After writing the above I think I had better lock my door and remain between my own four walls for awhile. A REAL poet would remain between my own four walls and keep his or her head out of the sun. No, the sun is too bright and the rays too strong.

Our jaunt must be put off to-morrow.

SPORT SIDELIGHTS

BY "BOO" Harrington

Jeanette Whitfield, Lambda, and Shirley Roberts, Kappa, two enthusiastic members of the Sports Club, report to the organization, were appointed in last week's Sports Club as captains of each of their respective teams for next year. As team captains they will control the working end of the Sports Club.

TEAM CAPTAINS' DUTIES

As captains they are getting up and supervising the match and practice games; collecting Sports Calendars from Dormitory representatives; making a list of all the members at the end of each quarter, and handing to the president the names of those people who are qualified at the end of the year to receive their team's letter. (To qualify, one must make three teams a year.)

PARTICIPATION HAS INCREASED

Student participation in intramurals this quarter, both from the sidelines and the field, is apparently three times what it was last quarter. At softball on Monday, Tuesday, Thursday and Friday evenings, the bleachers are packed; faculty and students yelling for their choice. Sports Club members.

Swimming practice on Mondays and Tuesdays has drawn a crowd of swimmers, primarily from the very splendid Freshman Class. The Aquacade this year is to be an unusual affair. Afterwards there will be swimming and diving contests and the presentation of well-earned awards to Sports Club members.
