Upper Rotunda Is Exhibit

VENICE, a photographic exhibition prepared by the editors of LIFE, opened in the Upper Rotunda at the Georgia State Woman's College, beginning October 30. The exhibition is one of the principal LIFE articles dealing with the Venetian civilization.

For a thousand years Venice has been a magnet for art. In 1656, the poet, Petrarch, wrote, "I know not if it has an equal within the whole world." This exhibition in both text and pictures paints a Renaissance splendor and opulence and rich civilization that was expressed in the extraordinary achievement of art and life in that unique and serene city.

The exhibition opens with a presentation of the Venetian atmosphere as imagined from the air by a Renaissance artist, with the Grand Canal winding like a serpent through the city. It continues with twenty-four enlarged panels that follow with the story of the fabulous city as it was and is today. With her government alike the others, but one faction: Venice; one loyal to her former self. The masks, as imagined from the air by a contemporary composer; with their masks put an end to the once proud state. The exhibition was prepared under the direction of John Goldsmith, and served the students, students of art, and the public with an extraordinary achievement of art and life at GSWC.

Roommates

A roommate is a queer animal existing only where two live in the same room. She is either two sizes smaller or two sizes larger than you. Her habits are strange—wandering the window up when you're freezing down when the room is a hot oven. She loves the radio the night before your big test. She doesn't want to talk after your most exciting date. She's bursting with enthusiasm when you have your worst headache. In the midst of an intriguing novel, she has to tell you about her great-sandie's arthritis. Her boy friend is by far the best of all. She's the one who goes to bed early and wakes you up by yelling: "Hello, Darling. Are you going to bed now?"

The roommate—the one that has to live with—has to put with the eccentricities of you; the roommate—who manages to find time to help you dress or do some last minute pressing for you—who has to live with the reality of your all your summer adventures or who will return the book to the library that you had forgotten to return; this roommate does all this and more too.

Roommates are made in heaven. Born. Being a good roommate takes practice and patience and tactfulness and any other adjective that might be applicable. Saying the right thing at the right time or saying the wrong thing at the wrong time can make or break a beautiful friendship. A wise person once said to me: "But I, myself, don't have to worry about it. I just don't talk!"

But . . . the question is: how MUCH do our conscientions hurt us? The next day we slip back into the rut and have forgotten the things that made us do the thing we did because we try to forget it. And WHY? Simply because it's too hard. It takes effort to do anything about it. It's much easier to drift along with the flow than to swim against it . . . "The Difficult Man," . . . "Fatherhood of God" and the fact that "everyone has certain inalienable rights" despite color or creed. And so it is easy for us.

But what about Christ . . . about loving Him?

Letters To The Editor

Dear Editor,

We, of the Freshman Class want to express our appreciation for all the wonders we have seen and have enjoyed in the past six months. We felt as though we were old friends and were just having a fun getting-together. This lessened the danger of many extreme cases of homesickness.

We especially want to thank the faculty members. They showed us our rooms, introduced us to many people, answered our many questions. They must have grown tired of answering the same question over and over, but one would never know it. "Servilace with a Smile" must have been their motto.

Many of us came here without knowing anyone else. We had to pack our bags and go to a new place, but we probably would not know over a half dozen girls for a few weeks. We wouldn't have to worry about how to get acquainted with others, because we had a "class round-up" before we were allowed to begin the school year. We just hope we will be able to do as good a job next year and give the new girls the same chances that we had been given.
