Eight Freshmen Sisters Former GSWC Girls

In this year's Freshmen class, there are several girls who have the distinction of being sisters of former GSWC girls. Some of the upperclassmen have already recognized the similarities between the fresh and old students. Everyone who knew "Betty" Harrington of Fargo when she was a Sophomore "Martha" in '48 will immediately recognize her sister Janice. Most of us have also heard of Betty Jackson, known already as "the freshman with the beautiful voice." Betty is a new member of the Glee Club and the Sorority, is the sister of Martha Jackson, one of the graduates of last June.

Maurie has contributed two little sisters in the class of '53. Ann Brasington is the sister of Jean Bryant Tucker and Clara Neil Wheelich is Carolyn's younger sister. From Sylvester, we have Helen Grace Ford, sister of Edna. Janice Player of Bainbridge is filling the spot vacated by her sister Annette.

Miss Martha Rooks joins the faculty as Assistant Professor of Home Economics. A native of Donaldsonville, Tennessee, she attended Tennessee College for Women in Murfreesboro, and the Bachelor of Science degree from the University of Tennessee. After teaching in the high schools at State City, Tenn., and White Hall Text-Miss Rooks instructs in the Physical Education Department. She is the daughter of Mr. and Mrs. Benjamin H. Rooks.

Aliss Martha Rooks, a native of Athens, Ga. She holds a Bachelor of Science degree from the University of Tennessee. She has been working on the YWCA service for the past year as Residents Advisor with Miss Polly Alann, First Vice President of SGA and Secretary of the Student Council. She has been chosen to head the Sophomore Council for the school year 1959-60.

Artists To Feature Top Performers Here

The Artist Series performances scheduled for this school year will feature many top-flight performers in several fine arts fields.

On October 27, the Balaklaskoff Symphonette will be presented with Vladimir Balaklaskoff conducting. The American soprano, Marina Koshez will be the featured soloist with the group. Miss Koshez may be remembered by her appearance in such movies as "Luxury Liner."

The second performance will be given by the Chicago Opera Company on November 16. The directors and stars performers are Ruth Page, and Bentley Stone. Miss Page has toured the world for several seasons, and her co-star is one of America's leading classical dancers. The program will feature the full length ballet, "Beauty and the Beast," the score of which was written by Tchaikovsky.

The third performance on the Series will be the duo-pianists, Luboshutz and Nemenoff. These pianists are a renowned husband and wife team who have been heard not only from coast to coast throughout the United States but also in every music center of Europe. They have appeared for successive years in Jacksonville, and are greeted with much acclaim. December 10 is the date of their appearance in Valdosta.

For the last group to be presented by the Artist Series will be the famous Garden City Opera Company. In previous years the Bar, and the Sorority have a Shakespearean or modern play. They will deviate from that year's work to present the "Imaginary Invalid" by Molierie.

“Gems of Thought”

Men are often capable of greater things than they perform. They can stand up with credit and adorn the world with their gifts, but the difficulty is to get the use of the routine. But routine can be game and sometimes helpful. There may seem some things that are passing us, but if we learn to take advantage of the things a higher degree, then the routine is there to help us.

“Make the Most of Your Time”

You have often heard the saying “Make The Most Of Your Time.” This is the beginning of a new quarter and a new year. For the Froshmen it is the beginning of a new life. There are many adjustments in a new life of any kind and a life away from home may be hard but soon you may begin to realize that the ones here might “just” happen to love you as much as, if not more than, they did before.

So there is no time for sitting around and moping over those minor things in your life now. This might be the only time you ever have to come to college—to take advantage of the things a higher education may offer you.

It may be harder to study here at college but the results will be more. It may be difficult to get use to the life of routine but routine can be game and sometimes helpful. There may seem some things that are passing us but the quality is there to help us.

The Point System is here to keep you from doing things and to help you in the good for generation. The library is here to help you keep up with your studying. The routine is here to help you get use to the idea of having rules and regulations.

What does this have to do with the saying “Make The Most Of Your Time”? Well, if things were done this way, they are supposed to be done and not put off till tomorrow, which is when people want to do it. There is another saying, “Don’t Put Off Until Tomorrow What You Can Do Today.” That applies to the same rule of wasting time.

When you think that there is too much to do, try looking back at a few days before or even a few weeks before and see if there was any time in which you could have been doing something constructive. If so, you might remember that the next time you have such a feeling, you might want to try doing it again.

There will probably be times when things do pile up, but it might be helpful to be on the lookout for just such times and be prepared for them.
