The MARGAS and -MAC will have a page devoted to them in the 1951 PINE CONE.

You'll Get By

Are you one of those people who is getting by? one of the people who haven't realized that the art of glancing over someone else's paper is far better known as cheating than as "getting assistance." This is definitely not one of the fine arts offered in any state institution with the exception of one of the prisons. You'll find no Ph.D.'s in his art. He is the one who doesn't care that he can find some of those people who have done graduate work in this field in institutions somewhat similar to this one. The similarity being in that both are state owned and operated for society's benefit.

Let us look into the styles of actions of these artists and the methods used of form of the curve system in this quarter's grades and see if there is anything that can be done to improve your grade. If you are one of the people that is doing well in school, you will be interested in improving your grades. If you are one of the people who are doing poorly in school, you will be interested in improving your grades. If you are one of the people who are doing poorly in school, you will be interested in improving your grades.

First, the artist never thinks that he is not working on a major in cheating, but also one in stealing. Several of the faculty members on the staffs vote for editors. By the new method of the problem of the men's athletic program Dr. There are numerous basketball players on the campus that will not get their grades up to the facts that shine so brightly. The faculty members on the staffs vote for editors. By the new method of choosing the people who will head the organizations that are political this summer. You'll be able to get into the organization that you want to see them move into realities.

In Answer

By Ann Smith

I feel sure that Mr. Dame is perfectly sincere in his criticisms of Valdosta State College's athletic program?—is the question. An impartial reader

The student body of Valdosta State College can be one of the best audiences to be found, but it may also show a very childish side when given ample opportunity. There are very few things more dis-tracting to a group of performers than an impatient audience, especially when the people in the audience reach the point of clapping their hands and stamping their feet rhythmically.

It is almost as hard on the people in the audience when other members of their group insist on talking and generally disturbing the program. Coke bottles have been thrown at the V. S. G. auditorium because the floor is concrete and built with an incline. Several people were heard to remark during the recent "Trio" that they were unable to hear a good many lines said by the actors because of rolling bottles, rattling papers, and scraping feet.

You may not be enjoying or understanding the program, but with a little more attention and quiet you might do both, and you will certainly make the program more worthwhile to the people who interest.

Elections to major offices on campus have started and will continue until the first of next quarter. Each student should participate in elections which involve an organization to which he or she belongs.

Only those students who take an active part in the elections on campus and use their privilege of choosing the people who will head the organizations have a right to complain about the actions of the officers. In the light of the many activities and improvements that have been the policy of these organizations to have only the staffs vote for editors. By the new method any student will have a chance to nominate those they would like to see in position and give this individual qualifications.

This is not just a faculty affair—there are representatives of the student body serving on the committee, and the students make up the majority.

After the nominations have been submitted the committee will select from the names submitted the officers to serve for the coming year.

You are being given another opportunity to have a voice in campus affairs—take advantage of this!
Students Enjoy Assembly Program

Mr. William S. Smith, president of South Georgia College in Douglas, was the speaker at the Georgia Day assembly held Monday morning, February 12. He was introduced by President Glenn N. Thaxton.

For the Georgia Day address, President Smith took his topic, "Georgia in Perspective." By relating the early history of Georgia from its origin before 1492, he presented to the students a summary of those fields in which Georgia has, or has been, especially noted. He gave instances of Georgians' prowess in the areas of business and professions, agriculture, natural resources, religion, arts, sciences, and civic enterprises.

Dr. George A. Hudson, Presbyter-ian missionary who has recently returned from China, was the speaker at the assembly held last Monday.

Dr. Hudson described the life of the Chinese town in which he worked, both before and after the Communist revolution. He stressed the very great danger that the world is in because of the Communist plan for world conquest. In conclusion, Dr. Hudson gave three steps in our defense against Communism: knowledge, resistance, and demonstration of a better way of life through a Christian democracy.

The Philharmonic Club presented a program of vocal and instrumental music at the chapel period last Wednesday, February 14. The program included the following:

Piano + Audubon (Lecuona)—Rehearsal (Rehearsal) Violin—Romance (Ogarew); Serenade (Ogarew). Kreisler)—Peggy Ann Phelan.

Accompanists—Mr. Logan, Billie Cleet.
