Students Admitted FREE To Homecoming Dance Show I.D. Cards

At Last... Homecoming!

"TEKE TALENT REVIEW" SCHEDULED FEBRUARY 26th

February 26 marks the date of the third annual production of the "Teke Talent Review" for the purpose of selecting Mr. and Miss V. S. C. Talent for the year 1959.

This year's title of the Zeta Nu chapter presentation is: "Another Opening. Another Show." It will be built around a selected variety of Broadway musicals for intermission entertainment.

Dixie Wenger, last year's winner of the Miss Talent division, will present the awards to the new victor. Penny Williams, a sponsor of the local TKE fraternity has named a number of dance routines for a "choreo line" opening to the show. She has other plans as Choreographer for the production.

Students who have agreed to participate in the contest are: Kathy Pike, Wayne Fowler, Kay Churchill, Donna Blessing, June Domingos, Marcia Walters, Jo Beatty, David Barton, Mary Shadrack, Bernie Brown, Jerry and Wayne Stockard, and Penny Williams. Other students are encouraged to participate.

Tickets will cost thirty-five cents for students, and fifty cents for adults.

This weekend is considered the peak of the social calendar at Valdosta State College. However, its success depends on the individual student. The object of Homecoming is to welcome back the alumni of V.S.C. and make them wish that they were back in college. The proper effect can be had only if each individual has the proper spirit and is willing to do his share. On Friday everyone is urged to wear a costume to fit the theme — "Frontier Days." It doesn't have to be something elaborate, but just a little something to go along with the idea.

The big game will begin at 8:00 p.m. Friday. The "Rebels" will play Piedmont College and everyone's support will be needed. If each student and faculty member takes it upon himself to be at the game and bring as many people as he can, we can come close to filling the gym. And if the cheerleaders do some familiar cheers for a change, with everybody yelling for the "Rebs," I guarantee that you will see a good ball game.

Of course, everyone will be at the dance on Saturday night to hear the music of Don & Debbie's Orchestra. I imagine that there will be some who won't be able to hear the music although they will see two orchestras.

Here's to everyone who worked so hard in trying to make this Homecoming the best ever.
Segregation or Survival?
By Gene Deal

Recently the Georgia Legislature passed a new law placing age limits upon entrance to college. The avowed purpose was to prevent integration in the University System.

This is a stupid, One-sided, idiotic law. How is it going to prevent integration? It has already been stated by our illustrious solons that there will be exceptions to the age limit. And certainly a student of higher education will run that law. So the law will have to be applied to qualified applicants of both races. Otherwise it will declare the law invalid as being discriminatory.

And the law is discriminatory. Let's face it, segregation is discriminatory. But this law does not discriminate primarily against the Negroes. It discriminates primarily against every man, woman, and child living in the state of Georgia.

How? An example. The situation: a young girl gets married as soon as she leaves high school. Instead of going to college she has two children and a house to clean. But in the state of Georgia it is discriminatory. But this law does not discriminate primarily against the education of the girls. It is true that the average college for more and better trained scientists and engineers, the denial of an education to any person who is capable of advancing the nation's science and industry and maybe indirectly, mankind — could easily be disastrous.

In our present struggle with the Soviet Union we cannot hope to prevail without well-educated citizens. It is true that communism will be made to look less seductive than it has been here before, and further education of the youth is also denying the hope possible education and better services to our country's future. The people in the state of Georgia will be far behind the Soviet Union which our nation would probably be forced to succumb to if we let the law pass.

If it is necessary to choose between segregation and survival, I personally would choose survival.

DILLARD ENSLEY

Peanuts, Popcorn or Crackerjacks?

The PLANET PARROT

Once upon a time there was a little port shop. When he was bored he used to get into a big argument with the man next door about what was the word for peanuts. From then on each time he would see a peanut he would turn red. The next word that was thought for peanuts was used in a very way of life, mixed, and so he never did learn to say any word for peanuts. He used to think that he had come across a very way of life, it had not been repeated.

Valdosta State In Science

Mr. Eugene Gibbs, who completed his academic work for the B.S. degree at the end of the Fall quarter, is now employed in the laboratory of the Georgia Experiment Station.

Professors Dowell and Lindauer of the Chemistry Department attended a meeting of the American Chemical Society at Florida State University on January 23, 1959. The principal speaker at the meeting was Dr. O'Meara, Head of the Chemistry Department at Pennsylvania State University.

The Fresenius Chemistry is now on display in the office of the class of 1956, which Dr. Duvall, head of the Chemistry Department. This award is a copy of the 49th Edition of the Handbook of Chemistry and Physics, published and donated by the Chemical Rubber Publishing Company.

The award will be made on Honors Day to the student who has made the highest achievement in general chemistry this school year. The award will be competed for by all students interested in Chemistry. The winner of this award will be eligible to compete in a regional contest for the regional award. The latter is a set of selected scientific books to be placed in the library of the winning student's college library.

Mr. Dennis Paul Baker, who finished his degree requirements last quarter, is the author of an article in the American Veterinary Medical Association, vol. 132, No. 9, May 1, 1958, which was awarded to him by the American Veterinary Medical Association for his work in the Department of Animal Diseases, Georgia Coastal Plain Experiment Station, Tifton, Ga.

Mr. Charles Shaw, a member of the class of 1956, who represents the college of Georgia, was awarded a pharmaceutical supply house in the area. The award will be competed for by all students interested in Chemistry. The winner of this award will be eligible to compete in a regional contest for the regional award. The latter is a set of selected scientific books to be placed in the library of the winning student's college library.

The chemistry class is indebted to Miss Daveleone Carter, M. T. for a talk on recent development in chemistry research. Davleone completed an experiment on enzyme reactions in the Georgia College library. She has been studying the effects of temperature on enzyme reactions and is scheduled to present her results at the February issue of the Georgia Medical Association.

Dr. Donavon Davis (from 1957) has been working on the chemistry of the nuclear fuel cycle. The latter is a set of selected scientific books to be placed in the library of the winning student's college library.

New Canopy Feature

In this issue we will see the first of a new series to be featured in the Canopy. Written by Dr. Beatrice Nevin, it is a column of science news pertaining to Valdosta State College and its students. We of the Canopy Staff wish to express our thanks to Dr. Nevin for her assistance to this paper, and the interest in this school shown thereby.

From The Bench...

Gerry Colson's Rebels soundly drubbed the Cadets from North Georgia Saturday, January 31, leading 33-1 at halftime. The Rebels went on to win 69-31. The harpoon of Jerry Studlar and Buck Ethridge was too much for the Cadets. Also, the ball handling of Wayne Studlar, John Carter, John Mayo, and Gene Peacock aided and abetted in the sweet victory.

In a previous engagement in North Georgia's gymnasium, the Rebels had to go all out to defeat the Cadets by one point, but playing on our own spacious court, it was a comparatively easy one for them. All of the Rebels got into the game.

This week the Rebels have been working hard preparing themselves for February 3, when they encounter LaGrange. In a previous engagement, LaGrange defeated the Rebels by one point in an overtime game. This time Valdosta is out for revenge, with an exuberance of self-confidence and in very good physical condition. The Rebels should emerge victorious.

Next week the Rebels are home once again, so won't you come out and give them your support.

By Roy S. Wetherington

When is a person lost?
Lost, Lost, Lost.

Alpha Delta Pi Initiates

The formal initiation of eleven pledges of Alpha Delta Pi was held on Saturday, February 7, in the sitting room of the Alpha Delta Pi house.

The initiates into Delta Theta chapter were: Judy Jones, Thomasville; Ann Hattaway, Dawson; Kaye Brown, Sylvester; Mary Stubbs, Buford; Sandra Patillo, Moultrie; Judy Starling, Habersham; Patsy Lasky, Valdosta; Donna Tidmore, Dawson; Joy Collier, Dawson; Elaine Dockett, Smyrna; and Mrs. Henry Tart, Valdosta.

During the week preceding the initiation, the pledges and sisters participated in various activities in preparation for the final initiation ceremony. On Tuesday night the Black Diarists were held with Pam Paulk, president of the chapter, officiating. This event marked the beginning of the "Friendship Week" which continued through Saturday.

Open House was held on Thursday night at the home of Pam Paulk. All pledges, sisters, alumni, and patronesses were present. Refreshments were served. Among those present were an alumna, Mrs. Carroll Congers, who spoke to the group on "What Alpha Delta Pi Means to Me."

A D Pi Holds Cookout

On Friday night the sisters and pledges held a cook-out at the House-in-the-Woods. Several of the sisters gave brief talks on various phases of Alpha Delta Pi. The new members, who were initiated on Saturday afternoon, were honored that night a banquet at the Green Turtle Restaurant. Various awards were given to members of the pledge class. Sandra Patillo was honored as the "Most Outstanding Pledge" and was presented with the "Most Outstanding Pledge" and the "Most Outstanding Sister." Aid for the scholarship award. Lucille Helm was honored as "Most Active Sister."

Why do people compliment us when we're alone but criticize us in public?

Sigma Epilson Holds Winter Rush Parties; Make Plans

The Brothers of Tau Kappa Epsilon Fraternity would like to explain to everyone the reasons for the delay in delivering the 1959 V.S.C. Calendars. It is our sincere hope that you will have been delivered before this explanation is printed. The delay is due to the printing as the printer was overwhelmed at Christmas. Also, a great deal of experimenting had to be done in order to get the correct colors and tones, in order to make the pictures sharp and to bring out the true beauty of the girls. This is the explanation given to us by the printer. We regret the delay and thank you for bearing with us.

TKE Brothers Explain Cause of Calendars

Being Late

On January 27 and 28th, the reorganized Sigma Epilon Colony of Sigma Phi Epsilon held their Winter Quarter rush parties. Both parties were well attended, and an entertaining as well as informative time was had by all. National Representative Richard Allen was on hand to answer any questions relative to the fraternity. It is expected that this colony will nationalize in the very near future. At this time there are 15 men registered with National Headquarters.

Representative Allen appointed the following officers to serve until such time as they seem it feasible for the colony to hold an election. President—Bobby Coleman, Vice-President—Tommy Sessions, Secretary—Buster Wadson, Treasurer—Mike L. Hoed, Historian—James David, Pledge Trainee—James Brown.

An immediate project of the Sigma Eps is the selling of flowers for the Homecoming Dance. Anyone wishing to purchase a corsage or boutonniere for their date may do so by contacting any Sig Ep member.

Outstanding In Religious and Social Activities At VSC

A warm, friendly smile, a willing worker and dependable members fit the description of our two personalities this week.

Glennoy, a transfer student from Normac Park, has certainly succeeded in making friends around the campus. He has also helped in the promotion of religious activities.

A Senior this year, his major is Social Work and minors are English and History.

Glenn is active in the M.C.A. and is a member of the Ministerial Association, a member of the English Club and a member of the Glee Club.

Glenn's hobbies are pingpong and good old television programs. When asked what his likes are he replied, "Everybody." But he could do without badgers.

Future plans for Glenn include attending the Southern Eastern Theological Assembly in Take Forest.

At the present time he manages to keep busy with a wife, child and teaching in two Baptist church schools.

The Valdosta State Campus is truly grateful for good Christian workers and personalities such as these.

Some of us don't know how well off we are, or has that been said before?

A car, so far as the down payment goes, costs more than a baby carriage, so the average couple buys a new one.

De-spair is not in my dictionary.
The Tumbling Bells
By Gene Deal

Night is coming
And here I lie,
Dying;
But not alone;
For with me are my friends,
My neighbors,
And my family.
All strangers,
Who do not hear;
Or heed.
The bell,
The distant bell;
Soft,
Melodious,
Yet hard;
And brittle;
And with each ring
I ache
And die,
Slowly;
Surely;
Without hope;
And unable to share
With others
My Agony,
My fear,
That burdens me
And dooms me,
And brings me here
To die like this,
Hearing the bell—
No!
The bells!
Many bells,
Getting louder;
Coming closer—
Stop them!

Within me,
Driving out life;
My life;
And I grow weak
And can't fight,
Or call for help
From God.
And so I must die;
The inevitable;
Coming now
With dimming light,
And growing pain;
With bells that ring
More slowly now,
And softer,
Diminishing,
And taking my life—
My soul—
With their escaping sound;
Away;
Somewhere far away,
Into the dark,
The eternal dark.
And with a final burst of chimes,
And a clash of cymbals,
I die.
And still I live;
To die,
And die again.
A million—
Yes, a million times a million—
Empathetic deaths:
To hear the bells that others hear;
To feel the pains that others feel;
To fear the death that others fear;
Until that final day
When I must share my death with
others,
As others have shared their death
with me,
And the bells that rang for them
Shall toll for me.

Drinking Coca-Cola...

Yes, it’s been demonstrated time and time again, that for real refreshment it’s Coke every time! Add up that cold crisp taste, that lively lift and you really have a drink worth going after. So whenever the crowd has a multiple thirst, make the high sign of good taste . . . pass around the Coca-Cola! Quod Erat Demonstrandum!

BE REALLY REFRESHED...HAVE A COKE!
