STUDDARD, MARTIN TAKE TOP STUDENT AND FACULTY HONORS

Dr. Whitehead Speaks On "Uncommon People"
VALDOSTA—Jerry Studdard of Homerville, star VSC athlete, youth cultural leader, and "Man of the Year" at the annual Honors Day program, Studdard is something.

Another top award — for the faculty member who has contributed the most to student activities during the current year — went to James E. Martin, Associate Professor of Physics.

Dr. Thomas H. Whitehead, President of VSC, delivered the main address of the day. Dr. Whitehead chose for his talk "The Uncommon People," using this phrase to describe the honored students. In his remarks he defined the "uncommon people" as being those who have worked themselves into a place above the average.

Other awards, five students were acclaimed for having done outstanding work in academic areas. Jerry Studdard, Kay Dottingos, Bennie Roper, and Pat McCune, all VSC students, received awards for outstanding study of History.

Dr. Whitehead presented a scholarship to Jagged Fork of Adel. An award for the top Biology student went to Bennie Ruth Baker of Tifton. Penny Williams of Valdosta received the award for excellence in Biology. The Inter-Fraternity Council awarded a scholarship for excellence in Chemistry to Tau Kappa Epsilon fraternity.

Jerry Studdard was honored a second time when he was awarded the trophy as the outstanding basketball player of the year.

An annual feature of the Honors Day program is the presentation of certificates to the outstanding members of Sigma Alpha Chi honor society. Students who had been previously announced as members of Who's Who in American Colleges and Universities were also given certificates.

Four students who had been named "Marga and Mar," (the all round students) were presented their awards. They are Pam Pank, Valdosta; Patsye Landford, Waynesboro; Joe Torpich, Manchester; and Joe Webb, Bryan Mayer, Penn.

Aqua Show At VSC Pool
The Fins and Flippers, local Aquatic Club at VSC, has announced plans for its annual water show to be held at VSC Pool May 29 and 30. The group also has tentative plans for presenting the show at the Youth Center and the Country Club the night before that at the college pool. The theme of the show will be taken from Broadway productions. Tuesday, Cliffs will dance.

EDITORS

Canopy Policy

It has been customary for the Campus Canopy to publish what its policy will be for the remainder of the spring quarter and the coming year.

The editorial policy will be consistent with the local and school level.

We believe the purpose of the college newspaper is to comment and report editorially on issues vital to the college.

All material presented objectively and impartially with the exception of the editorial page where opinions and comments will be presented.

Two types of articles will be presented: homogenized columns written by staff members and unsigned editors.

Signed columns will reflect individual opinions not necessarily the same as the views of the Campus Canopy Staff.

The Editor, associate editors, and business manager were selected by a student faculty committee.

All other staff members are appointed by the editor.

In conclusion we will at all times strive to keep the doors of the Canopy open, the mental as well as the physical doors, so that everyone has a right to express themselves to an open mind.

We will try to improve school spirit by getting behind the student activities program and supporting it. We will try to keep the student body informed and aware of accomplishments the achievements of the college.

Water People Politics

By Stephen W. Sevits

Water everywhere and not a drop to drink. That's how the old saying goes. In some respects this has been the case on the USC campus recently. Some weeks ago a crisis on this campus was due to have the plumbing halted.

The plumbing was in perfect working order at the beginning of this project. After many days and weeks of diligent work, the situation has changed. The downstairs showers in Read Hall have been repaired to a point where it is possible to have hot water. That showers have to be taken upstairs. The washing machine in Read Hall has met some kind of untimely fate that has rendered it useless. Did it perhaps deserve Efficiency and速 were the keynote during the aquiferous recon-STRUCTION.

For several weeks the water pressure in some parts of Read Hall was enough to fill a cup in half a minute. After much weeping, wailing and gnashing of teeth, the situation was corrected.

This time of the year is the perfect time to start on extensive, time-consuming projects when the school is in full session and operating. The water system was working perfectly, so why couldn't it wait until the summer to be repaired?

On one occasion, there was no water but hot water coming from the faucet. If a person wants a drink, the fountain in the hall is the only place, besides the shower, to which a refreshing drink may be had.

Similar word has been received from the dormitories. After all is said and done, let's give the administration the due credit that it deserves. At this date of publication, it is believed that the water problem is solved, but it is still skillfully worked out by the administration as another subtle means for... SEGREATION

Burmaids In Class?

Students, rise up! Now, is the time for united action on the part of the Student Body. Again VSC fails as the students are not permitted to wear Burmadas to classes. We are being deprived of the Burmaids that all college students should have.

If the proper authorities decide that the Burmaids are not necessary to the students, I'm sure that they are not as "old fashioned" as many of us would like to believe.

After talking with many students, I believe that Burmaids would improve the atmosphere on campus. Burmaids would be worn with pride and the consuming changes and indulge a libation. It is a known fact that one can think clearly only after a better result when he is enjoying something complete comfort.

We can put this thing across if we make an honest effort. The only problem that it poses in my mind is that some of the girls may want to wear Burmadas that are too tiny to wear. But freedom without discipline is an absolute disgrace. If we have to interfere with another person's right to self improvement. We have one freedom which he must never be denied. This is the right to believe in himself whether he will live in harmony with the laws of the universe, and thereby aid in the evolution of man for a produce of evolution, or work in opposition to these natural laws, and thereby deny the very thing which creates him. Harmony means life, death means death.

This to me is freedom.

Why Caps And Gowns For Your Graduation?

This June, as parents applaud the graduating class, why do the seniors have to wear Caps and Gowns? Some coeds suggested that they are being deprived of the comforts and luxuries of the spring quarter.

The administrative answer would be something like this. "I wonder if all coeds want to wear Bermudas that arc entirely too small. If so, I'm against it."

I believe that is my niche."

Why have freedom? Man must be free to discover and develop his full potential. To improve himself to the greatest possible degree. But freedom without discipline is an absolute disgrace. If we have to interfere with another person's right to self improvement. We have one freedom which he must never be denied. This is the right to believe in himself whether he will live in harmony with the laws of the universe, and thereby aid in the evolution of man for a produce of evolution, or work in opposition to these natural laws, and thereby deny the very thing which creates him. Harmony means life, death means death.

This to me is freedom.

Published weekly by students of Valdosta State College, Valdosta, Georgia, bi-monthly except June, July, August, and September. Published once during December.
The list of outstanding personalities from the fraternal organizations on campus include Miss Dot Heltzel, president of Alpha Xi, who is incoming president of the Panhel inicen Council and also dormitory representative to the SGA; Miss Brenda Ford, Beverly Ann Green, and Sandra Massey, Kappa Delta, who were recently inducted into the Sigma Alpha Chi Honor Societ y and were elected "TKE Man of the Year;" Miss Kay, who was elected as president of the Women's Residence Hall Council. This list of personalities should also include all those who were honored in or too part in the recent Honor's Day Program, and the TKE brothers of Tau Kappa Epsilon, who captured the Scholarship Award given annually by the Inter-Fraternity Council.

Kappa Delta and Alpha Delta Pi Sororities sent delegates recently to Emory University to attend the national convention of sororities on the Emory campus. Those attending from ADPi were Sandra Patillo, Pam Paulk, Gail Luke, Joyce Banks, Patricia Lake, and Marie Smith. The sisters going from Kappa Delta were Sandra Massey, Beverly Ann Green, Ginger Colpepper, Sue Wright, Barbara Bates, Carroll Howard, and Dorothy Pettigrew. The Kappa Delta chapter held an installation on Sunday.

EDITOR'S NOTE
As a new column the editor would appreciate any news of students who are returning from summer vacation or any new students who are entering the campus. If you can, please include news of sororities and fraternities, interesting trips to be taken by students, or any other "LATE WORDS."

Frater nal Initiations Held Here

By Sandra Massey

Fraternal organizations on campus recently held spring initiations for pledges. Tau Kappa Epsilon initiated four men into the Zeta Nu Chapter. Those initiated were Aubrey Fowler, associate member, George Boyd, associate, Beverly Ann Green, and Wayne Fowler, active member. Miss Aubrey Fowler, the father of Wayne, was present at the initiation banquet which was held in the private dining room of the delta chapter. There was also a party given in honor of the new initiates at the House-in-the-Woods with approximately forty brothers and guests present.

Kappa Delta Sorority held initiation ceremonies at North Baptist Church on April 25. The new initates were Louise Whiting, Jean Twitty, both active sisters. On the Sunday morning following initiation, the sisters attended the First Methodist Church in a group. Two new sisters were also initiated into the local chapter of Alpha Delta Pi Sorority recently. Those initiated were Dee Robinson and Mary McRae.

VSC Students Europe-Bound

If you travel to Europe this summer you are bound to come in contact with many American friends from VSC. George Bennett has a job in Germany through the American Student Information Service. Bennett, a Freshman, will work in Nordenham, near Braunschweig, in an agricultural Experiment station. This station testing productive ability of meats, milk, in July he will participate in an educational work camp in Stockholm, Sweden. In addition to Germany and Sweden, he plans to visit Denmark, Norway, Switzerland, and France.

Mike Singletary will spend his summer in Kochel-am See, south of Attnich in Bavaria, a studio young man, will take an eight-week course in Languages and history at the University of Munich, a school sponsored for foreign students. The books will not keep him tied down too much. He intends to see Switzerland, Italy, France, Netherlands, and Austria.

We wish these students "Bon Voyage" and a pleasant summer. George plans to do some hitchhiking. Have thumb, will travel. Good luck, George.

Caps and Gowns

(Continued from Page Two)
SPORTS

The first round of the tennis tournament has been completed, and we find in the men's singles that Billie McDaniel will play Bernie Brown, in the men's doubles McDaniel and Warwick will play Ehrtridge and David, and in the mixed doubles McDaniel and House will play Paul and Warwick.

CAPS AND GOWNS

(Continued from Page Three) presents, you tell at a glance whether a man is an engineer, teacher, lawyer, whatever.

For example, purple stands for the law; white, for religion; yellow, for science; green, for medicine; light blue, pedagogy; brown, architecture; lilac, dentistry; olive, pharmacy; drab, business.

Similarly, the hood lining is a tip-off on the school which conferred the degree. If, at commencement, you see a professor wearing a hood lined with light blue and white, you are looking at a Columbia graduate. If his hood is lined with Yale blue, he attended Yale. Lining royal blue and white, with a white chevron? He studied at Duke University. Its all a matter of what color he's sporting.

FROM THE BENCH

The Rebels have really got sizzling hot as the temperature increased. Some arms have vanished, bats have come alive, there isn't anymore and the Rebs have captured four out of their last five contests.

SPORTS ACHIEVEMENTS

Hansel Faulkner and Emory Mobley the fiery keyston combination have amazed fans around the loop as they have demonstrated their lightning double play combination, and as they have ripped the cover off of the ball at the dish.

At Berry Hans went 4-6 and Mobley 5-6. Thomas Thomas relieved Hampton at West Ga and mystified opposing batters with his sweeping curve balls and blazing crossfires.

STRING EXTENDED

Buck Ethridge, tall right-hander for the Rebel roundabout, continued to throw peas and split peas into catcher Tailpey's mitt, as he still manages to move down opposing batters. Several teams have come very near to suffering but shortages as Buck's high hard ones have a devastating effect on Louisville sluggers.

TEENIS

A woman driving the family car made a slight mistake one afternoon — the out-of-control car smashed through a fence and into four feet of water. The driver wasn't hurt, but the car was waterlogged.

Problem: How to tell hot-temperature husband a way to occur a minimum display of fireworks, she centered on the annual approach.

Wife (to husband, that evening, who was well fed and comfortable) Dear, you know that squirrel we had last week. You snapped at me and told me to go jump in the lake. Remember? Well, I did it today.

Husband—What!

Wife—Yes, I did. Oh — and by the way — I took the car with me.

Bill—Gosh, you have a lovely figure.

Ruth—Oh, let's not go all over that again.

Another good thing about small horses is that a fellow doesn't have to explain a black eye. Everybody knows.

On the ship going to Europe last summer one of the officers got angry about something, rushed to the speaking tube and yelled to one of the men below:

Officer—Is there aJillfishing plint at the end of this tube?

Voice (curiously)—Not at this end

As the little man crept into the movie theatre he took his seat in the last row it was obvious from the doleful expression that he had much on his mind and was sadly in need of recreation.

On the screen an old-fashioned melodrama unfolded, a production doubtless made long ago and now "re-issued." Came the scene where the heroine lured all unsuspecting, to the villain's lair, suddenly realized with horror that his intentions were anything but honorable. Luckily, she discovered the handy carving knife.

Here's — Stand back, you unspeakable cad. (branishing the weapon) I may only be a poor, friendless woman — but . . . by Heaven, I shall sell my honor dearly?

Little man — Profiteers. Everywhere you go, it's high prices!

Happiest Man — She said I was interesting and brave.

Her Best Friend — You could never marry a woman who deceived you from the start.

The phone number belongs to the bookie who placed my bet for me. Two days later Mrs. Miller was visiting her husband when he came home.

Mrs. Miller — You'd be interested to know that your race horse called you up a few moments ago.
