## AT RANDOM

with Clegg

Well am I burning! Now before you readers get me wrong; I'm not angry with anyone; it's just this darn old sunburn. I went to the beach this past week-end; had a wonderful time but like everyone else got too much. It seems that the current question is not how are you but "How's Your Burn?" But enough of that let's get along with this scorching column.

First off I should like to get on my soap box about the current happenings concerning Bermuda shorts. The question here seems to be "To Wear or not to Wear." Well at any rate I am not so concerned with whether to wear or not to wear but more so with what the students have been doing. A petition was circulated but was never presented to the SGA. I would like to commend the students who got up and signed this petition. It shows a little bit of school spirit in a school spirit void college. Now whether the persons who were to present this petition didn't know about the SGA meeting I do not know but I would like to challenge them with this statement, "Once something is started one must see it through."

I would like to take this opportunity to thank everyone who had such glowing remarks about the 1959 Pine Cone. I was very proud of the book, naturally, and I had hoped the Student Body would be also, but I never dreamed everyone would be this pleased and satisfied. So I publicly say "Thanks a Million."

By the way, the Canopy has a new office. It's located in the little inner office of the publicity office. We will begin operating formally in this office, the Campus Canopy office, beginning next year. We are planning to fix it up a bit, with a sign on the door, etc. So this will be our haven for next year.

### HENRY V

I would like to recommend a motion picture to you. It's Henry V by William Shakespeare. Coming to the Roxy Theatre tomorrow (Thursday) Dr. Gulliver assures me this is a very fine production with a fine cast. As anyone in Shakespeare knows. So come on out to this movie and just remember that you will not only see a fine production, but you will be helping bring other classics to Valdosta a Theatre void town.

Speaking of performances I should like to congratulate Miss Dixie Lee Weger on a very fine recital Monday evening. If I were giving Oscars she'd get one for "Cherry Blossoms", the dramatic monologue she closed her recital with.

Robert Frost, eighty-four-year-old poet recently said that the future under the threat of a Nuclear war and obliteration of the human race doesn't look hopeless. He said an exterminator once told him "nothing can be exterminated." Frost said, "People are like Roaches or Bed-Bugs. . . They can't be exterminated."

He continued: "So a Hydrogen bomb goes off and we find ourselves in the other world. Someone will probably brush himself off and say, 'wasn't that something?'"

Well I'd better stop, I'm burning again. But before I go I'd like to leave this with you, "smile, it doesn't hurt you; and it's something that makes you feel so good after doing it."

## CANOPY VISITS SGA MEETING

1959 YEARBOOK ARRIVES — GRACING ITS PAGES IS BEAUTIFUL JUDY STARLING. "MISS PINE CONE, 1959"

### Bermuda Shorts, Committees And Rattling Discussed

This is a new feature for Campus Canopy readers. At last you will be able to go behind the closed doors of the Student Government Council meetings to learn what your Council is doing in its meetings, and become better informed as a member yourself of Student Government. At this first meeting the major things discussed were: Rattling, Committee Appointments, and Bermuda shorts.

The first meeting of the Student Government Association of 1959-60 met in the House-in-the-Woods Monday, May 18 at 7:30. The meeting was called to order by the president Jimmy Broxson. Only nine members were present leaving five absent of the 14 council members. The President announced that this was a called meeting. He further stated that the council must have the full cooperation of all its members for the remainder of this year and of next year.

Rattling for the freshmen of next year was the first topic of discussion. The president suggested a week of intensified rattling the first week of classes and Rat Court the following Monday. Council member Pat Luke made a suggestion concerning the rat caps being worn for a longer period of time.

However, motion was made by the Treasurer, John Jackson that the S. G. A. sponsor a week of intensified rattling the first week of classes culminating in Rat Court the Monday of the following week. The motion was declared carried by the president.

The President then proceeded to make his committee appointments. The first committee to be appointed was the Rat Committee whose purpose was, he stated, to plan the rat events for the freshmen next year. The work of this committee must be approved by the faculty. Those on the Rat Committee are Ken Ferrell, Chairman, Sandra Patillo, Judy Johnson, Betty Pace, Lib Adams, Mike Laslie. This whole committee is outside the S. G. A.

The next committee appointment was that of finance. The president explained that this committee's purpose was to work out the S. G. A. Budget for next year. Appointed to the committee were: John Jackson, Treasurer, Chairman, George Bennett, Tony Corso, Patricia Luke, Brinkley McNeal, Mr. McCoy, Faculty advisor.

Jackson further stated that the comptroller, Mr. McCoy, and he must sign all bills for them to be paid. Major things for budget allotments are: Homecoming dance, Freshman dance, Christmas dance, Spring dance, Homecoming prizes, publication of the V-Book, and a filing cabinet for the S. G. A.

The Social Committee was appointed next. The members of this committee are: Barbara Monk, Chairman, Wayne Studdard, Jean Hooks, John Baskin, and Mr. Martin, Faculty advisor.

Mrs. Wisenbaker, S. G. A. faculty advisor, stated that this committee should work jointly with the Faculty Social Committee as well as a part from them. She stated the S. G. A. Social Committee in joint meetings with the Faculty Committee should feel some responsibility.

(Continued on Page Two)

### YWCA Sponsors Chapel Fund

Although a chapel was one unit in the original layout of our campus, it was on November 29, 1943, that the YWCA actually established a fund for that purpose. Through contributions from individuals and clubs, almost a thousand dollars was raised that first year, and sometime before 1953, another thousand was added. The few existing records indicate that the Fund fell asleep around 1950, and the only additions made were derived from accrued interest. In fact, it was discovered this year that most students were not even aware of the existence of such a fund.

The YWCA has been able to raise the total by a small amount this term and plans to have as its major goal next year the building up of the Chapel Fund. However, this is no longer the "Y" Chapel as it was in 1943. The YWCA is now one of four religious organizations on campus. These four groups hope that other clubs and individuals will lend their support and that the Chapel Fund will become everybody's pet project.

During Final Exams, a new feature will be seen in the lobby of the Administration Building. A wishing well will be placed there to help you through those awful exams and to swell the Chapel Fund. Of course, when you make your wish, you will toss in a coin—the bigger the better. Try it, and see if it doesn't work for you—and see the Chapel Fund grow again!

### Announcement

The last issue of the Campus Canopy will be published next Wednesday, June 3. Any material we have not already received will not be accepted any later than noon tomorrow (Thursday). At the publicity office.

### G S C W Madrigal Singers Appear Here

"Music hath charms that calm the savage beast." There weren't any savage beasts around the day the GSCW Madrigal Singers came to VSC, but if there had been the music of these young ladies would surely have calmed them.

When interviewed by this reporter, the director, Miss Alberta Goff, explained that madrigals were originally written to be sung sociably in small groups, without an audience. Because of their polyphonic nature madrigals demand much talent for interpretation, and therefore are seldom heard today.

Miss Goff organized the Madrigal Singers on the GSCW campus about twelve years ago. She said that there are no strict requirements for membership other than an ability to read music and a desire to sing. A girl's personality is also important.

Incidentally, there are no voice

or music majors in the present group.

On their spring tour the Madrigal Singers appeared at Norman Park, Abraham Baldwin Agricultural College, and at Vashti before coming here. The day before they sang at VSC they gave a program on television, from Albany. They also have appeared twice on the station in Macon.

On the Sunday following the performance at VSC, this unusual group ended its tour with a formal tea in the old Governor's Mansion in Milledgeville.

### Dean Merritt Speaks Here

Miss Mary B. Merritt, Dean Emeritus of the University of Miami, was a visitor on our campus over the weekend of May 22-24. Mrs. Wisenbaker, Dean of Women at Valdosta State, entertained Miss Merritt and the Panhellenic representatives and sponsors at a dinner party Friday evening in the private dining hall of the school dining hall.

Miss Merritt was here on VSC campus to make an address at an Educational Tea given for high school seniors and sponsored by the City Panhellenic. The tea was held at the Georgia Power Auditorium on the afternoon of May 23.

### Reminder!!

All Library materials (books, magazines, pamphlets, etc.) are due not later than Wednesday, June 3.

### Henry V Coming To The Roxy

Shakespeare's Henry V will be shown at the Roxy Theatre on Thursday, May 28. It will have a limited engagement of only one day.

Henry V is portrayed by Sir Lawrence Olivier. Other actors in the movie are Robert Newton and Leo Genn. It is to be shown in Super Scope and Technicolor. The management of the Roxy plans to bring one show, based on our great classics, once a month. Among the future movies to be shown are Richard III, Hamlet, and Romeo and Juliet.

The members of the Campus Canopy staff urges each of you, both Students and Faculty, to see this great classic come to life on the screen.

# EDITORIALS

## Letters To Editor

All letters to the editor must be typewritten. Two copies made. One copy is to be signed by the writer using his correct name. This copy is for the Canopy files and will only be seen by the editor who will not reveal to anyone whom the writer is unless the writer must be called in to answer to the administration for what he has written. The other copy of a letter may be signed anyway the writer wishes, with any pen name he or she chooses to use. In the event the writer does not mind the editors using his correct name, only one copy will be needed by the editors.

All copies of letters to the editor will be filed in the private file of the editor and will only be seen by himself or in a case such as stated above. Any comments on anything will be accepted in letters to the editor.

## Pine Cones

By Gene W. Deal

By now everyone has picked up his Pine Cone and lugged it away to look at, discuss or criticize, and have the pages buried under tons of ink as his friends try to hide their pictures.

For the first time this year the pocket size yearbook has been discarded. This one has more room for collecting signatures and witticisms. The inside pages have been brightened by colored pictures, and this cheerfulness cannot be dampened even by a full page picture of the ugliest man on campus.

This is an excellent yearbook. In fact, the consensus is that it is the best annual VSC has ever had.

## SGA Official

Not long ago a newly elected Campus official stood before an assembly of students and criticized the outgoing SGA for not having kept their promises to the students. The old SGA members, and even the students themselves, did not appreciate these remarks.

In the first place, everyone knows that the SGA this year has been the most effective in years. Not only that, many of this year's SGA had called this new official friend and had actively supported him in his campaign.

By the remarks he made that day he antagonized the students and made his job more difficult next year.

There is one redeeming factor, however. This new official did

not really mean the things he said. His great fault was an inability to express himself accurately. But this is an unforgivable characteristic in any government official. A campus leader especially cannot afford to be misunderstood.

Just as there is a social etiquette there is also a political etiquette. This new student official has proved that he does not know political etiquette. This he urgently needs to learn.

Perhaps for newly elected officials like this one the administration should offer a course in political etiquette — with emphasis on tact!

## New Flag

The flag was tattered and torn as if it had just come through a major battle. Its faded colors were grim testimony of overexposure to the hot Georgia sun.

"Something has to be done," we said. "Let's write an editorial criticizing the administration for allowing the flag of our state to be so dishonored at our school. Maybe we can shame them into getting a new one."

That editorial was never written. The next morning a brilliant new flag, still sporting its packing creases, flapped proudly at its older neighbor upstairs. The administration had seen the weary old relic and hastily rushed in a replacement.

So for brightening our campus with a new state flag the members of the Canopy wish to express our appreciation to the faculty. And for doing this without waiting to be prodded, congratulations.

## Comments On SGA Meeting

In reading over the copy on the Student Government Council meeting this staff reporter saw some statements which he would like to challenge.

First the statement made by president Broxson, that the V-Book states the following and I quote Mr. Broxson, "Bermuda shorts may not be worn to classes or the dining hall." For women students the V-Book states where Bermuda shorts may be worn. Therefore it is assumed that women students may not wear Bermuda shorts anywhere that is not specifically specified. However, the rule is different for men students, where the V-Book definitely states to what places Bermuda shorts may not be worn. I quote from the V-Book under the title Specific Items, pag

60, section 11. "Short pants and Bermuda shorts are prohibited in classrooms and laboratories," unquote. The dining hall is not mentioned.

I also must draw attention to the fact that the SGA has set Rat court for Monday, October 5. I would like to ask if this wouldn't (Continued on Page Four)

## Letters To Editor

MR. EDITOR:

I would like to take this opportunity to congratulate the 1959 Pine Cone staff for compiling a yearbook that every student of V. S. C. is proud to claim as their own.

Our '59 Pine Cone includes pictures of every major event of this college year; and as years pass we the students of V. S. C., can look back with pride on our 1958-59 college year by just glancing through the pages of our yearbook.

And again, may I express my congratulations to Mr. Jerome Clegg for producing a superb yearbook.

DEAR MR. EDITOR:

I am not accustomed to writing letters to the editor but I feel that someone should compliment the Student Government Association of 1958-59 for a job well done under some of the circumstances which it had to operate.

What Mr. Broxson, the new president of the 1959-60 SGA said in assembly last Wednesday (May 13) is disgusting. I don't think he conducted himself befitting a newly sworn in president in his unusually cutting remarks regarding the 1958-59 SGA. I think this fine group of people deserve more than a slap in the face. Perhaps the new SGA will accomplish more than the old, but there are more tactful ways of saying so.

It seems to me that a public apology to this group is in order by our new president of SGA. If there are others in agreement with me on this I should like to see their letters in this column. I will please ask that my name be withheld.

Anonymous.

GENE DEAL

## Advice To Seniors

At this time everyone seems to have some kind of advice to offer to graduating seniors, and I'm no exception.

In the Valdosta Times recently I found this statement: "A college education never hurt anyone who was willing to learn something afterwards."

At first glance that statement is humorous. Yet there is a lot of truth in it.

Most of this year's graduates have sixteen years of schooling behind them. They feel that they are now ready to go out and show the world a thing or two. After all, look how much they have learned.

But much of what they have learned will prove to be useless in the situations that are sure to crop up. Other situations will require knowledge and information which they have not learned in any of the schools they have attended. It is in these unexpected situations that the effectiveness of their education will be brought to light.

If they have not achieved true

education they will probably fail in meeting these situations. If they have gained a true education they will have a much better chance of prevailing. For a true education means that they have learned to learn. In fact, this is the most important thing students can learn in school!

Students who never really learned how to learn will spend the rest of their lives on the same knowledge level they are on at graduation. The students who have learned how to learn—and who realize what learning can mean to them—may spend the rest of their lives learning, either from books and magazines or from personal experience and contact with other people. These people will never be bored for lack of something to do. They will also find that there is always a place for them in our society—an active, important place.

So, to the graduating seniors I say, By today you should have learned how to learn. Now go out and learn as much as you can about life, and use that knowledge to reach your goals.

DEAR EDITOR:

The last edition of the campus canopy printed an article concerning wearing Bermuda shorts to classes, to the Library, and to the dining hall. This is an absurd on-tige. A classroom is no place for such clothing. A classroom deserves more dignified dress.

Who wants to look at knot knees and skinny legs while trying to study? What would you as a student think if your teacher walked into class in Bermuda shorts? You would not like it anymore than they would like it if you wore them.

If VSC is backward and old fashioned for not allowing Bermuda shorts to be worn to class I sincerely hope VSC remains backward in this one matter.

So I say NO to this ridiculous proposal, and I am sure many students say the same.

A Student

## SGA—

(Continued from Page One)

bility. There was a motion made by the Social Chairman that the council accept Mrs. Wisenbaker's suggestion. The motion was put to a vote and declared carried by the president.

The Elections Committee was appointed next with its chairman being Lamar Pearson and its member, Dot Harrell, John Jackson, Jean Hooks, Tony Corso, Mr. Dales, Faculty advisor.

Only the chairman of the Projects committee was appointed. He being Lamar Pearson, Vice-President of the Council. He is being given the authority to appoint his own committee.

The president told the council that a third member of the faculty in addition to the Dean of Men and Dean of Women must be appointed. By council vote the members chose Mr. Gabard. Mrs. Wisenbaker reminded the council that the president of the college picks the third faculty advisor and that therefore this could only be a recommendation to the president.

Council member, Dot Harrell, asked if the V-Book would be mailed to the SGA members. Mrs. Wisenbaker stated, "due to postage, the increase of the size of the V-Book, they had not been mailed to the students ahead of time for several years. Maybe the publicity office could get them to you (the council) ahead of time."

President Broxson then stated that a petition was going around concerning the wearing of Bermuda shorts to such places as the dining hall, classrooms, and the library. He said that it was to be presented to the SGA at the meeting but it had not been placed in his hands. He further stated that it had been rumored that a mass demonstration was to occur sometime last week — on Thursday to be exact. The Bermuda shorts were to be worn to the dining hall at the evening meal. The president said that if there was a mass demonstration he felt that the students would be "pushing the SGA aside."

The president further stated that the V-Book states that "Bermuda shorts cannot be worn to classes or to the dining hall."

Council member Wayne Studdard, rep. dormitory, stated that at Georgia Teachers College the students are allowed to wear Ber-

(Continued on Page Four)

make the most of it. And bear this in mind, always: people once laughed at Edison, Ford, and Steinmetz.

## What? Me Worry!

By Steve Sevits

I have one arch enemy in this or any other world, and that enemy is hypocrisy! If we would just look around us in every living moment we would see people who are just rubber stamps, tintypes, and carbon copies of each other.

Is it such a heinous crime to be different? Is it a mortal sin to stand up for and defend the truths that you believe? I say NO! Perhaps it would be more of a crime to suppress and have suppressed the very core of one's individualism. Surrender and become another rat, in the maze of life, who has had his will to live broken. Follow a long line like sheep, blindly.

Caesar, Napoleon, Ben Franklin, and many others have stood for their individual autonomy, in spite of ridicule. Socrates would not renounce his beliefs, even in the face of death.

The college years are the time to develop into separate and distinct INDIVIDUALS who are different from any other person in the world.

In our modern Rock 'n Roll society, the person who listens to classical music is a square. The one who plays chess is a cube (a compounded square). A person whose intellectual pursuits go even beyond this level is said to have scrambled his marbles (I believe that is the correct terminology).

These intellectual pursuits, or the lack of them, are just a small portion of the individuality in a human being. Wouldn't it be awful if everyone liked the same thing all of the time? Can you imagine just one kind of television show?

This is exactly the point at hand!

Be different through individualism. But DON'T be different just for the sake of being different. That is the worst kind of conformity and hypocrisy!

Have you ever wanted to do something and then stopped because of what public opinion might be? Some years ago there was a man on this campus by the name of Calhoun. It was my misfortune never to make the acquaintance of this gentleman. Instead, I met an English professor named Keller. Professor Keller was a character who was introverted, who drank heavily, and who despised the world and its inhabitants. He saw no hope for humanity. To him the world looked like a gaudy mosaic produced by an unskilled craftsman. There was no social pretense here.

If each of us would take a good, long, objective look at what we look like to other people, we would benefit immeasurably. The truth never hurts unless it is supposed to. Self criticism is the hardest task that a person can be forced to do. Yet someday each one of us will have to face ourself and make the decision that will make or break us forever. If we are in the mould of conformity, we will most likely make the wrong choice.

Mac West once said, "Opportunity knocks only once. After that it's got a key." This may be the truth behind the words Carpe Diem, which, when translated from the Latin, mean Seize the Moment.

Evaluate yourself, seek out the potential that lies within you, and

## The Latest Word

By Sandra Massey

It's a popular notion, especially around college campuses, that Spring is the season for the love bug to be making his rounds and it's no different on VSC campus. Some of those who have been seen using their left hands quite a bit lately to show off engagement rings include Charlotte Coppage, Mary Shadburn, Sally Parramore, Sylvia Osteen, and Pam Paulk. Sporting a frat pin or just a grin when you asked if they are engaged or Palsy Langford, Ellen Griffin, Evelyn Hunter, and Jere Hurst. Although it's a well-known fact that it takes a certain second somebody to make a happy couple, it's also well known that the girls make it fairly well known who HE is, so the fellow's names won't be mentioned here. All of us wish these students the best of everything!

On Tuesday, May 12, the freshman class held an outing and picnic at the South Beach at Twin Lakes. The party, chaperoned by Coach Cottingham, was a huge success where everyone enjoyed swimming, boating, and water skiing. The day proved to be quite an experience to some who had never tried to ski. Hot dogs and cokes were served during the afternoon, after which some of the couples enjoyed dancing.

Miss Candy Arcco, our exchange student from Yucatan, Mexico, spoke at a Rotary Luncheon held last week. Candy chose to speak about her experience here in the United States and especially here at VSC. Her comparisons between Mexico and the U. S. afforded a great deal of entertainment.

"Picnics and ants are inseparable" is an old saying, but something else should be included, "Spring and picnics are inseparable", too. The International Relations Club held its annual picnic Thursday, May 7, at the 4-H Club Camp at Twin Lakes with approximately thirty-one present. The informal outing lasted from two in the afternoon until eight o'clock in the evening, a living example of a popular definition "A picnic—where you go too far, to stay too long, to eat too much."

Mr. Errol Sewell furnished equipment for recreation and entertainment, and the Rev. Doyle Wetherington brought a motorboat. Faculty members and special guests attending the picnic were Dr. and Mrs. J. A. Durrenberger, Mr. Edward Beard, Mrs. J. Ralph Thaxton and Miss Mildred Price, adviser for the club. During the picnic, the name of the president of the club for the coming year of 1959-60 was announced. The club will be led by Lamar Pearson, a history major from Valdosta.

The week-end of May 15-17 found three of our fraternal organizations on campus enjoying the sun, sand in Panama City down Florida way. Valdosta State was well represented with approximately twenty girls from Kappa Delta Sorority, twenty-five from Alpha Delta Pi Sorority, and fifteen boys from the Sig. Eps. The weekend was filled with fun for all and Monday morning found a bunch of tired, worn-out, and sun-burned students.

Going to Jacksonville Beach on May 16 was a group from the Beta Student Union. Twenty-five students went along with Mr. Eugene Briscoe, BSU director, and his wife. The trip got underway

about 6:00 Saturday morning and the group spent a most enjoyable day swimming and sunning. The BSU served refreshments — cokes and cookies — during the morning.

All of us should give a rising vote of appreciation to Jerome Clegg, editor of this year's "Pine Cone," for his diligent work in making the annual such a success. After receiving the year book, all you could hear were the "oh's and ah's" over the beautiful color pictures and organization of the entire book.

As outstanding personalities from the sororities and fraternities this week we spotlight Jerome Glegg, editor of the "Pine Cone" and member of Tau Kappa Epsilon fraternity and Miss Kay Domingos, Kappa Delta, who last week went to Columbus to represent Valdosta in the Miss Georgia Pageant. Kay placed in the top five in the talent division for the rendition of "Wonderful Guy" from "South Pacific." Kay, we're all proud of you!

The Valdost State Glee Club held a party at Twin Lakes May 18 with about fifteen members attending. The group enjoyed the pretty afternoon and swam and went water skiing. Later in the afternoon hot dogs were served. The group honored their director, Mr. Teague, with a small gift in appreciation for his work with them during the year. The senior members of the group were also given small gifts.

The members of the Panhellenic Council were in attendance at a dinner given by Mrs. Wise Baker Friday night, May 2 in honor of Miss Mary B. Merritt, Dean emerita of the University of Miami. The young ladies enjoyed talking with Miss Merritt and also enjoyed a wonderful meal and fellowship.

On May 1, a party was given for the Dance Club and their dates at the local dance studio of Mr. John Ybumans, who is the instructor and advisor to the Club. During the evening, the couples enjoyed jitterbugging, slow-dancing, and doing the cha-cha. Several games were played and the winners received small interesting prizes. Near the end of the party refreshments were served.

The sisters of Alpha Delta Pi entertained their patronesses and alumni at an afternoon tea on Thursday, May 14. The guests were served punch, cookies, sandwiches, and diamond-shaped cakes with ADR written across them.

In a recent meeting the Brothers of Pi Kappa Phi held an election for officers to hold office to the middle of Winter quarter. Heading the list for the new executive committee will be John Jackson, Archib; Bobby King, Treasury; Tony Corso, Secretary; Jimmy Broxson, Chaplain; Dan Milcy, Historian; Charles Templeton, Warden. Shortly after election a brief installation service was held.

Date of publication for Pi Kappa Phi's new publication, "The Beta Tau-ker" has been set for May 25. This paper will be distributed to all brothers, pledges, alumni and to every chapter of Pi Kappa Phi. One publication will come out each quarter, this quarter's paper will be the first.

The Pi Kap's spent a fine week-end at Fernandina Beach, Florida the weekend of the 15th. Brothers and their dates had a ball from

the time they arrived Friday afternoon until Sunday afternoon. Brother Shealy McCoy and family were chaperones for the weekend.

At its most recent meeting the Business Club was installed as Chapter 1890 of Future Business Leaders of America. After the installation and the program for the evening, a short business session was held and refreshments were served. Informal pictures of the group were made during the social hour. The canopy extends hearty congratulations on the Business Club's Installation.

## Math - Science Newsletter

In a recent letter, John Corbett, who was a pre-medical student at V. S. C. two years ago, says that Raymond Wilson (1958 V. S. C. graduate) was his chemistry laboratory instructor fall quarter at the University of Georgia. John also reports that Jean Harrell and Jimmy Cerlock, other former V. S. C. students, are doing well at the University. Jimmy has been accepted for the September class at the Medical College of Georgia.

As a part of the College self-evaluation study, we have learned that 32 of the science graduates of the past five years 1954-1958, inclusive, have applied for transcripts of their college credits, thus indicating that they planned to do additional study. We know what most of these V. S. C. alumni have done and are doing, but we shall be grateful for any additional or more recent information, which you may have about any of them. When last we heard, the following were at the Medical College of Georgia: Russell Acree, Auburn Chitty, Lanier Allen, Freddy McLean, Bob Maughon, Charles Sheffield and Mack Greer. (The latter was a special student at V. S. C. where he met pre-medical requirements after his graduation from Emory University.) At Emory University School of Dentistry, Omer McLean and Glen Putnal are our representatives. The following students have done or are doing graduate work as indicated: Clyde Connell, Dock Frank Dixon, and Raymond Wilson at the University of Georgia; Lindsay Mason and Ronald Haire at Florida State University; Emily Jobe Sprouse at Peabody-Vanderbilt; Wayne Fair-

## Candy Arcco — George Bennett VIP's Of The Week

We were at a loss for a boy to feature this week, so we decided to take the first boy who walked through our door. Who was that? George Bennett.

George was born in Pogatula, La. on February 9, 1940. However, he moved to Valdosta in 1947.

George enjoys reading, philosophy, traveling, dancing, swimming and making friends.

As his favorite food, George lists those from foreign countries. Especially those from Mexico and as one special dish he list winkles, which he claims are snails.

As a pre-medical student, George is majoring in psychology. The Clubs to which he belongs

are the Glee Club, the Circle K, in both of which he is the treasurer, and the Dramatic Club.

This attractive 19 year old was born December 27, 1939, in Merida Yucatan, Mexico, where she has lived all of her life.

Candy graduated from high school in June of 1955. In September she started school at Rhogers Hall Academy where she studied Secretarial Science in Spanish and English.

Candy came to the United States in September of 1958 and entered V. S. C. as a freshman studying Secretarial Science. She is an exchange student sponsored by the Valdosta Rotary Club.

Candy enjoys playing the piano and the guitar. Her favorite sports are dancing and tennis. And her favorite food is chicken pot pie. The thing which has impressed Candy most about the States is the friendly people.

After spending the summer at home Candy will return next fall to complete her Secretarial Science course.

And by the way, Candy can put most of you to shame when it comes to saying ya'll.

## Campus Co-ed Jean Hooks

Our coed of the week is lovely. Jean Hooks, a sophomore from Sylvester, Georgia. Jean has the distinction of being the only girl on campus to be first runner-up in all the Beauty Pageants she has entered this year. Those are the Miss VSC Calendar Girl Beauty Pageant, and the Miss VSC Pageant in the Fall and then this Spring, the Miss Valdosta Pageant. Jean is an Ashley Hall resident, majoring in Secretarial Science.

Last week, by mistake, the caption was omitted from the campus coed picture, but the editor is sure all knew who "SHE" was. The twins pictured were Judy and Peggy Thrailkill, freshmen from Decatur, Georgia. They are Secretarial Science majors and reside in Converse Hall.

# -SPORTS- Something Of Value

By Lamar Pearson

It was evidenced in assembly May 13, that athletic events and athletes other than ones participating in inter-collegiate sports have their due places on the college campus. I personally think that Athletic Director Cottingham did a commendable thing when he initiated the giving of an award to the most outstanding or most valuable person participating in intramural sports.

The recipient of this first intramural award was Danny Hart. He has participated in intramural football, basketball, and softball. Congratulations Danny and also to you other candidates who received honorable mention.

For all baseball fans who attended the Rebel-Dolphin game at Pendleton Park, I am sure that they will agree that it was one of the best played games played this year at home. Buck Ethridge was the winner in this one, the real hero was Rebel right fielder Dewey Hulsey, who reached out and slapped a curve 325 feet for an inside the park homer. From there on the Rebels had smooth sailing except for a couple of innings during which things looked gloomy. The Rebels got two hits and scored three runs.

An important road trip is coming up this week-end On Friday, the Mercer Bearcats plays host to the Rebs and on Saturday, the Rebels will be out to avenge a humiliating defeat handed them by the Petrels of Oglethorpe.

This will conclude the season for the Rebels and I must add that it has been a most profitable one. This season they finally defeated North Georgia and the University of Tampa, who have been strong rivals.

## REBELS CONCLUDE SEASON

Valdosta State Rebels ended their regular season competition at Oglethorpe University, Saturday May 16. They lost 9-6 and thus ended the best season to date of Rebel Baseball teams. The Rebels surprised a lot of people this year in inter-collegiate competition. Losing the first seven out of eight games the Reb's came on to enjoy an exuberating stretch drive, and they emerged with a 10-12 record. Considering last year's record of only 3-2, it was a vast improvement.

This year we have noted an increasing interest in student participation for the first time. Also the team can note with pride that it defeated some real tough opponents this year, namely Jacksonville University and the University of Tampa. North Georgia was also defeated for the first time.

## INTRAMURALS

May 18, Sigma Epsilon defeated Pi Kappa Phi to conclude the regular intramural softball league. The batteries for this game were McIntyre and David for Sig Ep and Ferrel and Hay for Pi Kappa. The winning pitcher was McIntyre. Ken Ferrell was credited with the loss. An outstanding catch was made by Jim Anderson when he robbed Ollie Templeton of a home run. Play offs will begin this week and will extend into next week. No news has been received concerning the outcome of the championship tennis matches. Lately swimming classes have had to change their locations temporarily as the filter system has not been fully repaired yet. We are looking forward to taking that cool dip yet.

L. to R. JOE TARPLEY, EMORY MOBLEY, MIKE HAMPTON

## 3 VSC Athletes Retire at State

Since coming to Valdosta State I have come in contact with a lot of sports personages. These people were basketball and baseball players, one a member of the Detroit Tigers organization.

Every athlete's active career must end some time. When I say end, I mean that the athlete's playing days are limited to four years of inter-collegiate participation. This year three men will end their illustrious days of collegiate baseball at State. They are Captain Joe Tarpley, Mike Hampton, and Emory Mobley. They probably wouldn't rank with Yale's reputed Frank Merriwell, but a lot of people will remember them. 'Seppie' and 'Garmish' have lettered four years at State.

Fans will remember for a long while the diminutive man who donned the pads and squatted behind a seventeen inch rubber slab for four years. Seppie took a lot beatings and often he nursed bruised fingers and knees. His constant encouragement to the team pulled many games out of the fire. Joe developed into a real good stickman this year and his R. B. I. count was really high. "Seppie" was the little colonel of the Rebels squad and a great captain.

Mike Hampton will always be remembered by me as "The Old Deacon of The Mound Staff." He really drew some tough assignments; Mike pitched his heart out for the Rebels and often when he hopelessly behind. He was and still is a real competitor. This year he was hampered by a sore arm, the zip was no longer on his fastball, his curve didn't break as sharply, and it appeared that he had lost his stuff. But Mike was to prove more valuable at another position, first base. Here he developed into a slick fielder, and he also began to swing the stick with some authority. It's a big jump to make from the mound to the initial bag, but Mike made the jump a success.

Who can ever forget Emory Mobley, better known as "Garmish." I believe that he had a word for every thing and every possible situation. On the road trips "Garmish" kept the fellows laughing with his spiley jests. Mobley was a great student of the game and its finer points, and he has almost perfected the art of hitting to right field. As far as fielding goes, well, he's tops. It's a pity that the fans couldn't in on some of the better dugout confabs as Prof Mobley analyzed the opposing team with his stinging sarcasm and very often the plate umpire, especially a certain Mr. M..... of a Northern section of the state who also gave him the thumb in one game. "Garmish" could do many things with the stick. He struck fear into opposing hurlers hearts when he stalked into the box swinging that 36" log as he called it. Scowling with a menacing look on his face he blasted gargantuan shots into all corners of the field. His record achievement of five hits in six trips will stand for some time to come. His hitting behind the runners will provide an excellent example for future Rebel stickmen to aim for, and his position will be hard to fill with a competitor of his caliber.

Thus you can see them as they were. It's been a great privilege to have played with them.

## SGA-

(Continued from Page Two)

Treasurer, John Jackson, said, "What other schools do is one thing and what we do here is another."

The president stated that since no petition was presented the SGA could take no stand but that he had just brought it up because of the rumor and the fact that the petition was going around. Among men and women.

Council member Barbara Monk stated that any petition among the women dormitory students would have to go through the women's residence hall council before it could be presented to the SGA.

The President stated again that no action could be taken until the petition was presented. He then told the council that the editor of the Campus Canopy would be at all meetings to take down the proceedings and publish them in the paper.

An information stand will be put up in the student center at the first of the college year to help the freshmen and new students find their way around. Another meeting was set for Tuesday, May 26 at activity period in the Administration building, before the meeting was adjourned by the president.

## What Is It?

- What would you do with an "Obi"?
- JOY COLLIER—I'd put it under a radical.
- NANCY McLENDON—I'd give it back.
- EDDIE PIKE—I'd try to play it on the piano.
- JOE PATTERSON—I'd drink it.
- VIRGINIA LAMB—I'd take it, and then decide.
- BETTY GIBSON—I'd keep it like I do everything else.
- JULIE McNEAL—I'd paint it.
- VOLKER SELLIN—I'd cut it.

What would you do with an "Obi"? The correct answer should be "I'd wear it", because it is a wide sash worn with kimonos.

## Math-Science

(Continued on Page Four)

cloth at the University of North Carolina; Elton Dupree at the University of Nevada; David Mokhtar at Kirksville College of Osteopathy; Richard Oliver at Kansas City Osteopathic College; Jack Weaver at Temple University and Denson Wood at the Atlanta School of Pharmacy. Recent graduates who are obtaining training in Medical Technology are Dorothy Alford at St. Francis Hospital in Columbus; Elizabeth Dean and Della Raulerson at Grady Hospital in Atlanta. With the Armed Forces, we have William Ellis, Lester Haymons and Lonnie (Gene) Paulk (in Germany).

These are the students about whom our information is less recent; Mrs. Maynelle Randolph Crosby (Waycross Public Health laboratory.); Wilbur Kell Dowling, Jr. (working in South America?); William Johnson (teaching in Florida?); Edward Keel (?); and Max Roberts (industrial chemist in Atlanta?). Please tell us if you know where these five people are this year.

Emmy Kenny Phillips, one of our Atlanta alumnae, writes that her doctor sister, Nell, also a V. S. C. graduate, is taking a two-year residence in Pediatrics in a Memphis hospital. Nell hopes to specialize in Pediatrics Cardiology. Her husband is doing a three-year residence in Radiology so they will be in Memphis at least another year.

## Comments

(Continued from Page Two)

conflict with the fraternity rush the 5-9 of September which was set up at the 1959-60 Social Calendar Planning meeting.

I should like to agree with Council member Luke on having the freshmen wear their rat caps longer than a week. After all one must admit that it's good advertisement for VSC when the freshmen are seen in downtown Valdosta with them on.
