Greeks Set For Festivities

Greek Week, which was celebrated for the first time at VSC last year, is sponsored by the Panhellenic and Interfraternity Councils. The purpose of this week is to promote good relationships between the various Greek organizations, and to arouse spirit on campus.

The inauguration of Greek Week begins Thursday, November 10 and ends Sunday, November 13. Plans for a variety of activities have been made by the President of Panhellenic, Sandra Pattillo, and George Bennett, president of I.P.C. All Greeks may look forward to a week filled with fun and congeniality.

Tentative plans for the week begin with a mass meeting of the Greeks on November 10. This meeting will be held at 4:15 in the gym, and Greek Week booklet listing all activities will be distributed.

All sororities and fraternities will have an opportunity to display their singing ability in a formal song fest which will be held Friday night which will offer an opportunity for unusual pageantry. The climax of Greek Week will be the crowning of a Greek God and Goddess elected by the sororities and fraternities. They will be crowned at the formal dance to be held in the gym on Saturday night, November 12. Ribbons will also be awarded to the winners of the song fest and Olympics at this time.

The final event of Greek Week will be a church service, complete with Greek choir, to be held in the North Campus Auditorium on Sunday, November 13.

It is certain the Greek Week will leave a warm glow in the hearts of all and is destined to become one of the outstanding traditions of VSC.

Letterman's Thanks

Letterman's Club wishes to thank the Student Body for its cooperation in the removal of high school letters.

Humor Abounds On Campus

Scout around! Find anything humorous and write about it. These were the orders and here are the results of an intense and thorough search for "anything humorous."

If any of you saw a slightly dazed looking young lady wearing a sorority pin on the back of her shirt, don't worry about her. This young lady was rushing to class after her P.E. class and put her shirt on backwards. She didn't realize this until the pin began sticking her in the back. I wonder whose class she's in such a rush to go to?

Second World physical classes have their lighter moments, too. The class was discussing a proposed change in our calendar which would eliminate certain days. Before the explanation was completed one bright boy remarked, "But then every year, you'd get the same thing, too." Would somebody who knows about this explain it to the poor boy -- I can't.

Groover is New Calendar Girl

Dawn Groover, a pretty freshman from Thomasville, is VSC's Miss Calendar Girl for 1961. She was voted for the title in a recent pageant sponsored by the Tau Kappa Epsilon fraternity.

Twenty girls were chosen to represent each month of the year. These are: Dawn Groover, Lizzie Helms, Brenda Houston, Suzanne Brown, Gail Brown, Toul Steele, Margaret Davis, Emily Shaw, Sue Maxwell, Molly Coleman, Snookie Rigdon, and Jean Hooks.

Groover, the flirty and excitable type typical of a beauty contest contestant, had the nervous contestants showing chart, pose and self-assurance which they appeared in two divisions. The evening gown competition, judged on personality and poise, was held among a moonlight garden with an intestine background. The second division was the sports wear competition with an outdoor scene in which the girls were judged on their photogenic quality. Finally, in a ballroom setting, the girls appeared together before the judges.

During intermission, m. c. Benjamin F. Gooden, president of the TKE fraternity, introduced some of the brothers who sang several TKE songs. Steve Vaughn and Robert Waters, co-editors of the Valdosta Times, Leslie Brown, pageant hostess, were given credit for their help in making the pageant possible.

Preview Party Planned

Plan a preview party tonight which will include the Little Foxes, the Miss Calendar Girl, and the Miss Arkansas contestant. Many of the school's activities.

Who's Who Announced For 1960-61

Who's Who in American Colleges and Universities for 1960, is announced by Dr. J. Ralph Thaxton, president of Valdosta State College.

The number of outstanding students in American Colleges and Universities who are outstanding in academic and extra-curricular activities. They are chosen by a faculty-student committee.

Those selected from VSC are: Fred Lamar Pearson, Penelope Ann Williams, Carl David Melton, Marilyn NeSmith, Lary Charles Waters, Wilma Jean Hughes, James Moore Varner, Jeannette Leslie Brown, Stephen Reed Vaugh, Marilyn Leigh Hughes, Louise Hunt Wright, and Bernard Loan Brown.

Fred Lamar Pearson, son of Mr. and Mrs. F. L. Pearson of Sparks, Ga., has taken part in many of the school's activities.

He is editor of the Campus Canopy, vice-president of the Tau Kappa Epsilon fraternity, a member of the Inter-fraternity council, and president of the Intenational Relations Club. He plays varsity baseball and was president of the Lettermen Club last year. He is a member of the Circle K Club, Men's Christian Alliance, and Political-Historical Society.

Lamar was also elected Senior Class Mayor of 1959-60. Penelope Ann Williams, daughter of Mr. and Mrs. C. R. Williams of Valdosta, is the Social Club and reporter, former member of the Alpha Delta Phi Sorority. She was treasurer of the freshman class, freshman representative of the Homecoming Court, cheerleader third year, and Miss VSC for 1959-60. She is a member of the Flips and Flipppers Club, and Education Club.

Carl David Melton, son of Mr. and Mrs. J. C. Melton of Sylvester, Georgia, is president of the 1960-61 Student Government As-

(Continued on Page 3)
**EDITORIALS**

**Lack of Cents**

By David Melton

Many students here at VSC are in for a big let down come Graduation Day near June. For four years they have struggled through a course of study, all the while looking forward to the day when they would receive their diplomas. With that hand, they can go forth into the world and start making some money. These particular students will, upon graduation, be classed as professional people, but the money making that they can look forward to is in anything but the professional class. The students I have reference to are those who plan to enter the field of education. The salary they can expect to make is far, far less than that which is made by professional people in any other field.

There is, at present, a great clamor across the state for a higher quality of education, and there are any number of plans submitted regularly which are designed to raise the level of education. All but one of these plans, I fear, are unrealistic. The surest way to raise standards in the public schools is to raise the requirement for teacher certification, and this can be done only after salaries are raised. To be sure, there are those legislative nitwits in Atlanta who propose raising teacher salaries and then raising teacher salaries. This is like telling an automobile dealer to sell you a Cadillac for a few years at Ford prices and then you wonder why you haven't made good profit. Anyone but one of our state legislators making such a proposal would be laughed at as an idiot.

There are many people who desire to teach, but it can safely be said that the lucrative pay is not one of them. It is for sure that the teachers of the State of Georgia cannot be accused of being mercenary.

It now appears that the teaching profession is losing whatever attractiveness it has had in the past. For, if the figures of The Georgia Education Association are correct, teachers are leaving the profession by the hundreds - I know it could not possibly be that they are seeking higher pay in another field, why what Teacher could think of such a thing?

No matter how unattractive the pay or the conditions, there are those of us who will continue to enter the field of teaching for some inexplicable reason. Perhaps we are a special breed of person who feel we have been called to meet a great challenge. On the other hand, I rather suspect we belong to that group of people to whom P. T. Barnum referred when he uttered those memorable words, "One's born every minute."

**Students' Universal Problem**

By Betty DeVane

After the average student is comfortably settled into college life, he suddenly finds himself face to face with his primary problem - what am I going to do with my life?

Of course there is always some Egyptology to pursue, but it is all too often solved just as fast as we get interested in it. Just eat, drink and be merry, etc. - etc. But most people have the foresight to be concerned about the circumstances of the future.

The real problem is deciding, out of all your interests, which one should be further exploited so that you can have a happy life with adequate financial security.

There is to my knowledge, no exact formula by which you may determine your answer to this problem. If you're lucky, it may have worked itself out by the end of this year. Perhaps by developing your present interests and adding new ones, you may come to some conclusion.

You might worry excessively about any of this. To eat, drink and be merry is not a bad idea! Just keep in mind that a solution isn't going to come to you out of the clear, blue sky. Anything worth having is worth working for.

Good luck!

---

**Math-Science News Letter**

The Math-Science Club sponsored the assembly program for October 12 at which time Mr. H. Mc. Cheater, Director of Personnel Services with the State Department of Public Health, was the guest speaker.

At 4:15 p.m. on October 12, the Math-Science Club held its first regular meeting of the academic year with Robert Waters of Lowndes County as the guest speaker.

Mr. Charlie Dasher, VSC President, and Charles Dasher, VSC, 1950, who visited Lakeland Air Force Base in Texas early in October, Emmett was taking basic training at that time. Charles had completed basic training and was assigned to the medical laboratory at Brooks Air Force Base near San Antonio.

The Biology Department is headed by LTJG Lester Haymon, U.S. Navy, for a beautiful demonstration of Japanese cultured pearls and pearl oysters.

We wish to thank Bon Fountain for her help with the deep-sea sponge and coral specimens secured by her from the Gulf of Mexico.

An article on physical chemistry in the Chemistry Department, appeared in the October issue of the Journal of Chemical Education. The article describes the construction, operation and advantages of a simple device, called an isostechmometer, for measuring vapor pressures of liquids. This device is currently being used in the physical chemistry laboratory course.

doesn't sound as good as its people. So vote!

The day of politics being controlled

The Illuminates of Mixon Lodge.

In 1958 the election the GOP is organized in eight counties whereas in 1956, they were organized in only twenty counties.

We as Americans have a solemn obligation to exercise our voting franchise right on November 8. If we are to keep our county strong, we must vote as a VSC student.

Richard M. Nixon as a capable man; John Kennedy is a capable man. The decision as to who will hold the presidency of government for the next four years rests with you, the American people. A country is only as strong as its people, so VOTE!

Mr. William Warwick of the Valdosta Coca Cola Company has generously donated a large electric clock for use on North Campus that shows up to good advantage in the basement hall.

**Greek Week Nov. 9-13**

_Spirit De Study_

Friend, do you find yourselves sleeping less and worrying more? Do you take vitamin pills every morning and still feel beat? Do you worry about your old TV set growing less and less familiar?

If these are your symptoms, take notice! You are in a serious and crucial time in your life. You have developed a case of collegeitis!

It sounds dreadful, and it is, but if you are lucky, these symptoms will be gone in four years. For some, they won't.

Friend, don't despair, don't worry and be happy. Just get a little bottle of Spirit De Study, and your worries will be carried away as quickly as the school fills up with steam on a cold morning.

These are no obligations, no money to pay. Try this new remedy for a quarter, and notice the difference.

Just sit down in the afternoon, spread out your books and papers before you, and sprinkle a little Spirit De Study around. Don't panic. Put on your books, sprinkle it on the floor, on your head, and on the food you eat! Then simply sit back and concentrate on your lessons on bottle, each case differs depending on teacher and student.

Friend, I guarantee you that you will laugh again, you will feel ten years younger. You will sing the praises of Spirit De Study from pine tree to pine tree, and from room to dorm room. It will be the shout heard around the campus.

I implore you! But a bottle of Spirit De Study, and live again!
SOCIETY

The Latest Word

Well, it finally looks like winter is on its way. It surely looks good to see a few inches of snow on the ground and feel that little nip in the air. This is the kind of weather that makes me want to sit in the living room with a good book or a good movie. How about you?

A note of congratulations goes out to the Tau Kappa Epsilon Fraternity for their wonderful presentation of the Miss Calendar Calendal of 1960 Contest. Also congratulations are due to Dawn Groover, Alpha Delta Pi, who walked away with the top honor, and her runner-up, Lizzie Selma, Alpha Delta Pi, who was the first runner-up. Brenda Houston, Helms, Alpha Delta Pi, was the second runner-up. Suzanne Brown, Kappa Delta, was the third runner-up.

Activities are planned for the new pledges. These are Gene Xi Delta extended bids to seven pledges during the period of open rush. The pledges are not the only ones concerned, has been the great number of students who are supporting the Nixon-Lodge ticket. Ask can be expected, these students are all Democrats but, as many have stated, they feel that Nixon is the man for them. This seems to be indicative of the views of a great many Southern Democrats who believe that the Democratic Party has been highly neglected of the South both in the platform and in choosing a candidate.

David Melton, Lamar Pearson, and Doug Calhoun, campus supporters of Nixon, have each said, "It's not so much that I'm for Nixon, it's just that I'm against Kennedy and the Democratic platform."

Whatever the reasons, it is apparent that many solid Democrats are in favor of Richard Nixon. This is true not only on campus, but throughout the South. No one expects the solid Southern Democrats to bolt the Democratic Party this year, but there are signs which point out that the Democratic Party as a whole had better stop taking the South for granted, as it had better start paying more attention to what Southerners really want.

Who's Who Announced

(Continued from Page 1)

society. He is president of the Bank of Commerce for four years. He was the president of the Kiwanis Club for four years. He was the president of the Alpha Sigma Delta fraternity, a successful student body for four years. He was the president of the Alpha Sigma Delta fraternity, a successful student body for four years. He was the president of the Alpha Xi Delta sorority.

Laura Charles Waters from Blackshear, Georgia, is the son of Mr. and Mrs. J. C. Waters. He has been a member of the Science Club for four years, president his junior year. He has been a member of the science club for four years, president his junior year. He has been a member of the science club for four years, president his junior year. He has been a member of the science club for four years, president his junior year.

Larry Charles Waters from Blackshear, Georgia, is the son of Mr. and Mrs. J. C. Waters. He has been a member of the science club for four years, president his junior year. He has been a member of the science club for four years, president his junior year.

In the classroom, Larry Charles Waters has been a member of the science club for four years, president his junior year. He has been a member of the science club for four years, president his junior year. He has been a member of the science club for four years, president his junior year.

Mrs. Jeanne Leather Brown of Griffin, Ga., is the daughter of Mr. and Mrs. Ben Brown, Jr. She is chap­ tenant of the Glee Club and is on the Editorial staff of the Campus Canopy.

Marvin NeSmith, a speech major, is the daughter of Mrs. R. L. NeSmith of Valdosta. She has been a member of the Glee Club and the Kappa Omega Delta fraternity. She was secretary of the Alpha Xi Delta sorority.

The English Club held its first meeting on Wednesday, October 19, in the private dining room of the dining hall. There were approximately fifteen members present. All officers for the year were elected. They are as follows: President, Lee Gohn; vice-president, Betty Pace; secretary, Pat Herrington. The advisor of the club is Miss Odum.

Dr. Kronkite was the skit presented by the Sock N' Buskin Club Monday evening at the House in which he portrayed the part of the nurse, Chris York for the second time. The skit was entitled "Stick to what you believe in," in morals, in behavior, in values. Remember, that if you do the right thing you may lead you find one self along the same right path.

Drama Club

The scene was a classroom in a small rural school, the occasion a regular recitation. The teacher asked a young boy a question. Apparently the teacher had been much in­ nered by the answer and cried, "Sit down!" The abashed boy sat back in his chair and asked the same question and promptly became confused when the teacher pointed out his unexplained disapproval.

Finally Johnny was called and gave the same answer as the other students. This time the teacher was convinced of his answer, he smiled and said, "Well, boys, you were all correct, but Johnny was the only one sure enough to stand up for it."

It is important not only to give the right answer but to stick it through and think. This illustration can be well applied to our values in this day and time. Perseverance is quite an asset to a person's life. There may be a temptation to compromise in a situation in which you may know that you should be persistent. Stick to what you believe in. This is the kind of weather that makes me want to sit in the living room with a good book or a good movie. How about you?

Gama Mu Chapter of Kappa Delta, here on the VSC campus, observed the sorority's Founders' Day by holding a banquet held at Minchew's Restaurant. Elaine Fallen served as mistress of ceremonies. Special guests for the occasion were Miss Priscilla Odum and Mrs. J. M. Varner of Valdosta. Mr. and Mrs. R. R. Hooks of Blackshear, Georgia, is the son of Mr. and Mrs. B. L. Brown, Jr. He was photographer for the afternoon meeting.

Mr. and Mrs. Robert P. Wight, Armstrong College, Savannah, Ga., his sophomore year. Bernie is president of the Christian Alliance his freshman year. He has been a member of the TKE fraternity for three years and Glee Club for four years. He has also worked with the Campus Canopy, Sock and Buskin, and Dance Club.

Stephan Reed Vaughan of Augusta, Ga., is the son of the Rev. and Mrs. C. A. Vaughn. He was president of the Kappa Delta sorority in her freshman year.

Nixonites Hear Judd

Jennette Leslie Brown of Griffin, Ga., is the daughter of Mr. and Mrs. Ben Brown, Jr. She is chap­ tenant of the Glee Club and is on the Editorial staff of the Campus Canopy.

Barbara Ford. Many activities are planned for the coming year for the pledges as well as for the sisters.

Presty Miss Dawn Groover of Thomasville was recently chosen to occupy the spot of honor on the Tau Kappa Epsilon Calendar for the year 1960-61. Miss Groover is a member of VSC's freshman class.
Dear Diary...

As I take my pen in hand, I take my bottle of Coke in the other hand! Yes, dear diary, where would I be without Coca-Cola? Just a social outcast. Why, everybody drinks Coke! John and Bill and Barry and Charley. Horse too. Confidently, I think I'll have another bottle of Coke.

Cagers Averages 6'1

The 1960-61 basketball line-up shows up good defensively and offensively. Leading the team are the four lettermen: Jim Melvin, Jim Nichols, Charles Greene, and Tim Vinson.

Jim Melvin, a 6 ft., 162 lb. senior, hailing from Plains, Georgia, is the only senior on the team. He has not yet shown his full potentialities due to injuries from last year. If Melvin would play at top speed, he could be one of the top players in the Conference. His greatest assets are experience and the natural ability to do what he wants. Jim Nichols, a 6 ft., 5 in., 210 lb., junior, from Valdosta is definitely the type player to have on your team. His greatest asset is his unselshness to put in hard work and has the desire of a Pittsburg Pirate.

Robert Bailey, a 6 ft., 1 in., 167 lb., junior, is from Vienna, Georgia, and transferred from Spartanburg. Bailey has the reputation for being known as a pressure type player. He's a hard worker and has the desire of a Pittsburg Pirate.

Horner Chaiblis, a 6 ft., 2 1/2 in., 170 lb., junior, hailing from Plains, Georgia, and transferred here from Southwestern. With his desire he should be the top rebounder in this conference, Chaiblis works so hard in practice that he exhausts himself completely. His greatest asset is his outstanding ability around the backboard. Sonny William, a 6 ft., 5 in., 185 lb., junior, is a native of Sylvester, Georgia, and transferred from Young Harris. He maintained an outstanding junior college record and has the physical abilities and desire to be a good player. His greatest asset is the control type ball he has mastered.

Doug Winters, a 6 ft., 153 lb., junior, is from Gainesville, Georgia. He brought with him from Truitt-Screven an impressive junior college record. His greatest asset is the jump shot from 20 feet out. Possibly he could be a starter this year if he improves.

Robert Anderson, a 6 ft., 4 1/2 in., 156 lb., junior, is from Savannah Georgia, and transferred from Armstrong. He is yet still untried on the VSC team. Dalzell's uncanny ability to master the fast break could put him in a good position for state. Sonny William, a 6 ft., 5 in., 185 lb., junior, is a native of Sylvester, Georgia, and transferred from Young Harris. He maintained an outstanding junior college record and has the physical abilities and desire to be a good player. His greatest asset is the control type ball he has mastered.

Robert Bailey, a 6 ft., 1 in., 167 lb., junior, is from Vienna, Georgia, and transferred from Spartanburg. Bailey has the reputation for being known as a pressure type player. He's a hard worker and has the desire of a Pittsburg Pirate.

Horner Chaiblis, a 6 ft., 2 1/2 in., 170 lb., junior, hailing from Plains, Georgia, and transferred here from Southwestern. With his desire he should be the top rebounder in this conference, Chaiblis works so hard in practice that he exhausts himself completely. His greatest asset is his outstanding ability around the backboard. Sonny William, a 6 ft., 5 in., 185 lb., junior, is a native of Sylvester, Georgia, and transferred from Young Harris. He maintained an outstanding junior college record and has the physical abilities and desire to be a good player. His greatest asset is the control type ball he has mastered.

Doug Winters, a 6 ft., 153 lb., junior, is from Gainesville, Georgia. He brought with him from Truitt-Screven an impressive junior college record. His greatest asset is the jump shot from 20 feet out. Possibly he could be a starter this year if he improves.

Alumni and Rebels Clash

"We plan to be within 30 points of the alumni when the final whistle is blown," coach Gary Colson asserted. (Any you may take that quote with a grain of salt if you're willing...30 points ahead or...)

This was the coach's comment on the upcoming alumni, whom we will be facing against this year in the "60-61 Rebels in action against the Alumni, a team composed of Rebel graduates and several letterman here at VSC."

Bob Woodard, a 6 ft., 153 lb., junior, is from Valdosta and was captain of his forward to bettering last year's team. Bob Woodard, a 6 ft., 153 lb., junior, is from Valdosta and was captain of his forward to bettering last year's team. Today's game has been adopted by the group which all the cheerleaders, the SGA members and the physical education department staff. Each one did their bit, and they were judged on ability, poise and personal appearance.

The cheerleaders are busy now in preparation for a successful season of building and maintaining support for the Rebels. The uniform will consist of a black vest, worn with a white blouse, and a full black velveteen skirt lined in red."

Rebel Rousers

Jim Melvin and Jimmy Nichols are two familiar figures to the Rebel basketball fans and supporters at VSC. They are both lettermen and considered the backbone of this year's team.

Jim Melvin, a six foot senior, hails from Plains, Georgia. He transferred to VSC from Georgia Southwestern Junior College where he played for two years. Although he missed part of last year's season, on account of injury, he's back in top form this year. Jim is an education major.

Jimmy Nichols, 6'5", senior, is from Valdosta and was captain of his high school basketball team. He transferred from Valdosta his sophomore year and is majoring in pre-med. He has been playing forward on the Rebel team for two years now.

Melvin and Nichols could possibly become the top scoring lettermen in the conference with their potential this year. Melvin proved his ability to hit the basket last year after recovering from injuries. Nichols, using his asset of height, acquired point not only from his jump and hook shots but also from his timely tip-ins under the basket.

These two boys have a winning attitude towards the game and are looking forward to bettering last year's record and winning the conference.

Tokes and Dorm Lead

Representatives of the seven intramural teams met with Coach Grant October 18. At this time the rules were discussed with the representatives.

 Mention was made about giving trophies to the winners of each intramural sport. Rosters were to be turned in by October 27. After this date, no player could join the team if he's not on the roster.

The first game's date was set for Thursday, October 20. It pitted Tau Kappa Epsilon Fraternity against the Baptist Student Union.

TEKES DOWN BSU 9-6

Leading the TEKES to victory was Bernie Brown and Roger Douglas. Brown passed to Douglas for the only TEKE touchdown and also for the PAT. BSU water presented by a strong defensive line and strong offensive led by Jimmy Allen provided the TD.

TEKES with a strong defense was able to obtain a safety round out the score. Jimmy (RAT) Herring- ton gave the spectators a thrill with a brilliant run-back of a pass interception only to stumble when finally in the clear.

DORM RAPS TOWN 19-0

Behind the brilliant running and passing of Hannel Faulkner, the dorm team amassed a total of 19 points. Faulkner ran approximately 65 yds. for one TD and passed to John Fountain for the outer TD and PAT. Joe Dixon intercepted a pass and ran 40 yds. to the score-19-0. Town was led by the passing of Jimmy Noell, but he failed to hit his receiver for a scoring play. The defensive team for town was led by Jimmy Noell, Jimmy Davis, Gene Moren, Ben Stanland, and Norman Bennett. Defense for the dorm was led by Earl Joiner, Buddy Brock, Bob Steelman, and Bob Weller. This strong defensive line kept the town team scoreless.
