Who's Who Are Selected For 1964

Fraternity Scholastic Averages Now Exceed All-Men's Averages

Scholastic averages of fraternity members throughout the nation's colleges have shown a consistent rise for the past decade until they now exceed the all-men's averages on a majority of campuses where fraternities are located.

The final figures for the academic year, 1961-62, show that the all-fraternity average exceeded the all-men's average in 39.1% of the colleges reporting, according to an analysis just released by the National Interfraternity Conference. For the academic term ten years previous (1952-53), only 40.7% of the schools reported fraternity averages as being above the all-men's averages.

Accompanying the increase in the number of schools with a superior all-fraternity average has been a similar improvement in the nationwide percentage of individual fraternity chapters above the all-men's averages. During 1961-62, 48.8% of all fraternity chapters reporting were above their respective all-men's averages, whereas only 41.9% could show a superior rank ten years earlier.

The percentages were based on those chapters from whom comparable data were available, comprising over three-fourths of all fraternity chapters in the United States and Canada. In actual numbers, they were 1469 chapters out of a total of 3008 above the all-men's averages in 1961-62, compared with 1134 chapters out of a total of 2707 in 1952-53.

During the same 1961-62 reporting year, 35 institutions qualified for the Summa Cum Laude rating for especially superior fraternity scholarship.

initiation ceremonies

By BEVERLY INGRAM

The Alpha Chi National Scholarship Honor Society held its annual initiation ceremonies Monday evening, November 18, in the rotunda of Ashley Hall. Before an audience of parents and friends, thirty-five members were initiated into the Georgia Alpha Chapter and new officers were installed.

Mr. Maurice Lindauer, sponsor, opened the program by stating the purpose of the organization to the audience. Then Rev. Saunders Garwood delivered the opening ceremony, the Junior and Senior members were initiated. Each member lit his candle of learning from the Gold medal of Knowledge as he repeated the pledge. As each member affixed his name to the Constitution, Mrs. E. R. McCoy and Dr. Clyde Connell, assistant sponsors, read the Alpha Chi motto, "Ye shall know the truth and the truth (Continued on Page 5)
**The Campus Canopy**

**By ROBERT MAXWELL**

**Why Study in College?**

Why should a person come to college if he has no interest in studying or learning? Is the attitude of a tremendous number of students in college one of apathy and disinterest when confronted with this issue? Is it necessary to study in order to have a success of college? What is making a success of college anyway?

What possible benefit can a college education have if the recipient goes through without studying? Is the so-called development of the mind and broadening of the horizons accomplished without intense study? "No," the mature students say. "Yes." The mature student who does not concern himself with the books while in school is fooling himself pitifully. A degree of concern and preparedness influence the pupil to conduct himself properly in his college career and business life.

Quite obviously, the student who does not have an admission of concern by the students to learn, sparked by the campus leaders, is an unwilling and unprepared student. The student not having enough competent examinations, and the unwritten law around here that so many students are destined to get A's, B's, C's, D's, and F's, no matter what the course may concern, is certainly the unsatisfactory work lies in the conscience of all concerned.

We should re-consider our purpose here, our reasons for seeking college education, and strive to become more valuable persons, and of those who are here to guide us in this goal might give their part in it some thought also.

**The Train Of Thought**

**By LETHA WEBB**

Let's all climb in our attics, drag out our thinking chest, and air out a few thoughts.

"Is Religion Major or Abnormal?" I am confronted with this issue. Is it necessary to study in order to get the most out of life? I have decided that the answer is yes. I have decided that the answer is no.

The older we get the more we realize the importance of integrity. We also realize that one needs a personal reason within which to make a special time for oneself. This can be done at any age.

"Is Religion Major or Abnormal?" I say there is a need for this, as well. We all can feel Thanksgiving inside.

**Fire Lighting Service Observed**

The annual lighting of the first fire in the Newly Built Hall was held on Thursday evening, November 14. Under the presidency of President Freda Dunlap, the president of the newly established campus, college presidents, and faculty representatives participated in the ceremony. The ceremony was one which signifies the light and life of the university and stresses the qualities of so many.

Upheaval tradition should be regarded by VSU students as personal and should be treated sincerely by everyone concerned. Most only very few people attended the services in faces have been brought up. Insincerity is universal and as old as time. Bob Peal said one thing and meant another when it was to his advantage.

Are we all touched by the innocence of young children who want their way up and out of the state of incorrigibility? Are we touched by the "red" to the rules of this rat race? The older we get the more we realize.

But do we all not have a common desire to meet more sincere people with whom we can really identify? Whether we are acquainted with it or not, we are continually searching, and the more we value their friendship high.

These are the kind of people that we all want to get the more we realize this.

---

**Splain To Me Thanksgiving**

**By LEE HOBB**

What would you do if at an inopportune time your room was packed with people who want to celebrate Thanksgiving? If you're like me, you would quickly grab your subject and be off to your dormitory.

Later you start pondering, and ask yourself what it is that you want out of your life. It's the time we have to celebrate the safe landing of the Pilgrims away from school ... a time to remember the Pilgrims ... a time to try out a new fishing hole or hunting reserve or remember a time to eat traditional turkey and a day to get away from it all and a time to be thankful. Thanksgiving is a special day.

But do these answers explain Thanksgiving? Yes, in part. But what matters most is the importance that each parent has left out. There must be a personal reason within which makes this a special time for oneself. This can be done at any age.

"Is Religion Major or Abnormal?" I say. We have enough reasons to make a special time for ourselves.

---

**Religion—Major or Minor**

**By JIMBO SMITH**

Religion can be compared to a University or a College. At five and ten cent automobiles.

The sweat would pour from our foreheads as we scooped shal­lette with our elbows and let them fall on the ground. Some would stick to our faces, while others would be blown away.

But the memories we brought back the memory of the days we had spent there. We were all as happy as a pig in mud.

We served. We little girls, covered in dirt, would call out, "Hey, ya'll's time to eat with us, cause we're hungry."

By the time we got to the table, we were usually hungry, and we would eat anything. We would then wash our hands in the sink, or if the sink was not available, we would use the broom closet.

We were usually hungry. We would eat anything. We would then wash our hands in the sink, or if the sink was not available, we would use the broom closet.

By the time we got to the table, we were usually hungry, and we would eat anything. We would then wash our hands in the sink, or if the sink was not available, we would use the broom closet.

Happy Thanksgiving

FROM THE CANOPY

To The VSC Student Body, Faculty, and Staff

DRIVE CAREFULLY

International Student Conference

International students from Georgia and South Carolina will join together for the annual International Student Conference at Lake Louise Camp, Toccoa, Georgia during the Thanksgiving holidays. This meeting is sponsored by the Baptist Student Unions of Georgia and South Carolina for all internationals enrolled in their schools. The program will begin with a banquet of the Nations on Thanksgiving night and continue through noon Saturday.

The purpose of the meeting is two fold: it gives the students a place to go for the holidays and also helps to increase mutual understanding. The students will be asked to share their opinions and to tell about their own countries.

The International students from VSC will be Yolanda Loor, Babo Uloosh, Doug Murray and Henry Costa. They will renew friendships with their fellow countrymen and make new ones from many countries of the world.

Letter To Editor

Nov. 17, 1963

Valdosta State College

Dear Editor:

In the last issue of the CANOPY, a statement was made that there were not enough parking facilities on campus to accommodate the cars. I agree with this statement completely.

There really aren't enough marked-off parking spaces for all cars. I especially had time when everyone tried to get as near to the dining-hall as possible. Nobody wants to park by the tennis courts and walk from there to the dining-hall. There is a good bit of space in front of the dining-hall, where one is not supposed to park, but a good many people park and block the path. This space or some of this space could be marked off for parking facilities.

It is kind of bad also to park in front of Read Hall. I believe some of the trees there could and should be removed. Just that alone would bring about a few more spaces, and a lot less dented fenders and scratched paint jobs.

Sincerely yours,

Mike Farmer

Creative Writers

Held Meeting

The monthly meeting of the Creative Writing Club was held November 5th at 7:30 in the House-in-the-Woods. The purpose of the meeting was to encourage and refine the creative writing abilities of the members.

The club is open to all students regardless of major or class. Club members discussed the possibility of publishing a literary magazine later on in the year.

During the course of the program, poems written by Sonny Akins, Shelia Edwards and Tobi Minknick were read and discussed. A short story written by Leon Wilson was also introduced to the group for discussion.

The next meeting will be held the first Wednesday in December in the House-in-the-Woods at 7:30 in the evening.

Holly Hop Dance

Planned Dec. 6

Valdosta’s annual semi-formal dance, the Holly Hop, is being planned by the SGA for December 6. The dance is to be held on campus in the SGA Ballroom.

The dance has been on the VSC calendar for several years and is sometimes overlooked.
Alphas—Continued from Page 1

Alphas recognize the graduate members of Georgia Alpha Chapter following which the entire membership sang the Alpha Chi song. The accom­panying pianist was Mrs. Roger Kelly.

Officers who were installed include Gretchen Schroer, President; Tim Atkinson, Vice-President; Sandra Sessions, Assistant Secretary; Faye Davis, Treasurer; and Curt Wolniker, Member of Regional Council. Members were given ribbons to wear during the following week to increase awareness on the campus of the Alpha Chi organization.

Following the initiation and installation ceremonies a reception was held in the rotunda. A biology major, Greer Williams and a member of the Wesley Foundation.

A biology major, Greer is a member of Pi Kappa Phi fraternity, won the fraternity’s Scholarship Award in 1962. A biology major, Greer Williams is a member of Alpha Delta Pi sorority, and that he is still in there intercepting passes.

The Way Out: The Quick And The Slow

By LEON WILSON

Readers of the popular magazines—Life, Look, The Saturday Evening Post, Playboy—will have noticed a rash of recent articles on the hallucinogens, the hallucinogen-inducing drugs. You may have noticed these articles while standing at the magazine rack and reading Mr. Holley’s jolly magazines, never buying a one. (Of course Playboy, as it is not available at the Student Center.) Well, I want to jump on the bandwagon and take my two cents’ worth about the subject.

The hallucinogens occur in nature in certain plants, seeds, fungi, and roots. Lately some have been synthesized by chemists. While these drugs have different effects on different people, they all seem capable of giving the taker a feeling of transcending ordinary experience. All the articles speak of the possible uses for the drugs: curing mental illness, alleviating by inducing it artificially, stimulating creative artists, adding to self-understanding. Then all the articles darkly mention, as if people knew all along, that the drug will push an unstable person over the brink into madness from whence he may not return and that the drug may cause a psychic addiction even though it is not habit-forming. Naturally there is a possible military use, instigating mass insanity among the enemy, which is more humane than the atom bomb.

Those who take the drug, when asked to describe the experience, usually are forced to use the Zen formula “those who know do not say, those who say do not know.” The Zen masters use the formula to ward off questions about satori, the mystical moment of illumination for which they study, meditate, and discipline themselves for often twenty or thirty years. People taking the hallucinogens who try to describe the experience usually resort to comparing it to satori, the mystical moment of illumination for which they study, meditate, and discipline themselves for often twenty or thirty years. People taking the hallucinogens who try to describe the experience usually resort to comparing it to satori, the mystical moment of illumination for which they study, meditate, and discipline themselves for often twenty or thirty years.
