Dr. J. Durrenburger Retires; Dr. W. Pafford Successor

This year VSC has added 24 outstanding senior students to Who's Who in American Universities and Colleges. The students, selected by a student-faculty committee, were chosen on the basis of contribution to campus community life, participation in extra-curricular activities, the promise of future usefulness, and citizenship. This year the selection committee first asked students for their recommendations for Who's Who. Using these suggestions as a starting point, the committee nominated the 24 most outstanding senior students. Dr. Louis Sosebee, Dean of Students, said that the quota for VSC for nominations to Who's Who is 24, either two over or two under.

Named to Who's Who is Gail Allen of Quitman. Miss Allen has served on the SGA and in 1965 received the English department's prose award. Tommy Anderson of Valdosta is a member of the Circle K, Sigma Phi Epsilon fraternity, and the VSC tennis team. Gail Bazemore of Quitman is an Alpha Delta Pi and has served as vice-president and chaplain. She has been a member of the WAA, Glee Club, Sociology Club and homecoming court for two years. She is currently serving as Miss Pine Cone and served in the court in 1963. Gail has been Freshman of the Year and junior sweetheart and is the senior class sweetheart. She was vice-president of her sophomore class. She has been a runner-up in the Miss VSC contest, Miss VSC Spirit, and a winner of the Poultry Princess contest. William H. (Bud) Bridges of Valdosta is a member of Sigma Phi Epsilon and has served as its secretary and assistant coordinator. He was a member of the VSC baseball team for two years and was president of his junior class. Bridges is serving as vice-president of the SGA. Jo Bryan Sells has served as the SGA president of the Panhellicen Council, and Kappa Delta president and vice-president. In 1964 she was Miss Congeniality in the Miss Valdosta Contest and served on the VSC homecoming court. Dennis Cox is a member of the Circle K, Math Science Club, of which he is the president, Alpha Chi honor society, the VSC Band, and SGA. Larry Manning has been a member of Lambda Chi, Sigma Phi Epsilon, and has served as its secretary. He has served as the student senate's floor manager. Margaret Ann Smith Crowe of Valdosta is a member of Alpha Delta Pi, the Alpha Chi honor society and has been a member of the floor manager. She is a member of the VSC homecoming court, and is the senior class sweetheart. She has been a runner-up in the Miss Valdosta Contest and served on the VSC homecoming court.

The performances are scheduled for the weekends of Feb. 25 - 26, and March 4 - 5 in the Round Hall Auditorium.

Jerry Dickson from Adel, is the assistant director, and will assume all the duties of the director when Delhart is unable to attend rehearsals.

ETV Office Moves Here

The South Georgia educational television community relations office has been moved from Waycross to Valdosta by the University of Georgia. Van B. Darby, the University ETV representative, has located his office at North Campus of VSC.

The move was made because Valdosta is an ideal location for the type of program Darby (Continued on Page 8)
SHEILA McCoy

Entertainment Rule Must Be Changed

Even though VSC is an integrated college and has been for three years, Negro entertainers are still not allowed to perform on campus. Several students who just became aware of this fact about Negro entertainers on campus are circulating a petition to get the ruling changed.

A campus organization may sponsor Negro entertainment off-campus. But no Negro singing group, band, or lecturer may appear on this campus.

This means that the SGA could not sponsor a concert by the Absolute Honesty, or the Supremes if the opportunity ever arose. Comedians Dick Gregory, Godfrey Cambridge, or Bill Cosby could not be hired for a VSC appearance. Lionel Hampton could not give a concert on this campus even if he were spending the night in Valdosta and offered to play for free.

Student Assistants Needed With Enrollment Increase

“THERE is a lack of students who want to work as Student Assistants. We have the SGA office, the Business Office, the Library, and other departments that need help. This is one way to help students finance their college education,” Sheila McCoy states the VS Book.

This means that the SGA could not give a concert on this campus even if he were spending the night in Valdosta and offered to play for free.

Honor Systems Exists As Legend, Not Too Often Actively Upheld

“All academic work is conducted under the honor system. It is the duty of each and every student to uphold the integrity of the trust placed in him under the system, not only by his conduct, but by his unswerving desire to avoid any infraction of the rules,” states the V Book.

The honor system at Valdosta State College is, for the most part, merely a legend, not an everyday discipline. Academic misconduct has become so high that the system is obsolete and no longer serves a useful purpose.

Because the time involved in maintaining the honor system is not balanced by sufficient benefits, the system has been replaced by the ignore system.

Last quarter two professors discovered that a student in one of their classes had turned in a paper copied from a student in the other's class. Each professor gave an "F" to the student who cheated and the student who allowed him to cheat, the professors upheld the honor system. If the students had been impulsive and put the implications of the honor system, the incident should never have occurred.

Under the honor system if the offenders had been brought to trial each could have been dismissed from school. This incident is not an isolated occurrence. Its significance lies in the fact that the honor system was discovered but that measures were taken to condemn such behavior.

Bereavement is a subject not only in the college but in the classroom. Professor are often forced to spend more money to get white entertainers. There is a duplicity about allowing Greeks to hire Negro entertainers for campus dances and yet not letting the SGA. The majority of the students here are even more anxious to have Negro entertainers on campus than ever before. The no-Negroes ruling was not widely known among students, no protesto have been made.

But there are students who are not active in the business of getting the ruling changed. The signatures on the petition will be concrete proof of how many other students support them.

Students who wish to see the ruling changed need to be vocal in their protests so that the committee which made the ruling will know what the opinion of the students is.

258 Laundry Ballots Say No Satisfied Students

In the December 3, edition of the Campus Canopy the students were offered the chance of posting opinions on the laundry system of VSC. Although there were fewer ballots cast than expected the turn-out was fair. Two hundred and fifty-eight ballots were cast. Students were given five categories to vote on concerning VSC's laundry service.

No student voted that he was satisfied with the present laundry system VSC has. Twenty-six voted they would like to see the list of articles allowed to be sent to the laundry be changed. Fifty-six students felt that VSC should not have a laundry system. The majority of the student voters, 148, said the present laundry system is unsatisfactory and should be revised or changed to a better system.

Nearly all of the other suggestions expressed the idea of putting machines in the boy's dorm and doing away with the Sears system.

Out of 258 ballots cast there were no students who expressed satisfaction with the present system. Also, there were relatively few votes cast for a change in articles. All the students at VSC may be dissatisfied with the laundry service, but until "other suggestions are given and well we are apt to see no change in this laundry system within the next year or two.

The next step is for every student who wishes to see something done about the laundry system to contact his SGA representative and ask him to discuss the issue. If students do not actively show they want the laundry system changed, it will never be.

Some Suggestions For Speeding Up Registration At Valdosta State

The biggest waste of time a student spends at registration is standing in line to pay his fees. Even though working students, who need to finish registration during the summer and in September and December, have the full fall term fees in an envelope to be deposited at the business office, they are still students who need these hours spent standing in line.

Some students have children at home to whom they must return as quickly as possible. Most students, though, just can not understand why they have to stand in line two hours just to spend less than five minutes paying fees and getting a receipt.

We would like to offer some suggestions for speeding up the process of registration. To the gym students could be given pink file cards usually filled out by a business office employee in the ad building. Each student, after completing course registration in the gym, could be given a pink file card. The pink file cards would be used in later registration. It would also help complete registration in the gym.

Now students and students with special problems could still be handled under the present process, if necessary.

The business office would then check each student's envelope and make out receipts to be either mailed out or picked up by the student.

If such a process were installed, there would naturally be some confusion at first. But we see students become familiar with the system, all the kinks could be worked out.

VSC needs a more smoothly operating, less time-consuming method of registration.
NFJC Students Fly To Class

Madison—The North Florida Junior College probably is the only institution of higher learning in the world that has students commuting to it daily by air. Douglas Coleman and Charles McKinney fly Coleman's plane from Tallahassee to Madison daily and walk a couple of miles to reverse the procedure five days a week to get their college education.

Asked why they chose NFJC, McKinney said, "It's a good college, fully accredited, with a fine reputation. They don't take you there." They expect to graduate this term from NFJC and continue their education in their hometown at Florida State University.

The young men met in high school, served in the U.S. Navy, and then attended college in Florida. He has served as assistant U.S. attorney in Jacksonville and Miami, and has held several government jobs in Washington, D.C., including special assistant to the U.S. Attorney General.

Akerman has taught at Tusculum College, Tenn., and Florida Southern College.

Reserve the right on the U.S.S. Tweedy, and both expect to major in the social sciences when they leave NFJC—Coleman in history and McKinney in geology. Both have been in Florida about eight years. Coleman is a native of California and McKinney, married to the former Shirley Deann Rinkel of Tallahassee, is a native of Indiana.

The plane they fly is a 1946 model Taylorcraft—a two-passenger, single engine. Neither can repair it, but the only problem this far has been a "small oil leak," said Coleman. "It's been a bit of a letdown for them because they flew over Madison. Since then navigator McKinney has been given the job of keeping Coleman awake as well as watching for landmarks and other planes.

Coleman has always wanted to fly "so I could go when and where I wanted it." He began flying in 1951, and in November of this year traded his car for the plane and flies full-time for NFJC.

While he and McKinney were in service they traveled in Japan, China, Alaska, and Mexico by various transportation means ranging from dog sled to plane.

"It's cheaper, safer, and faster by plane," Coleman said. The roundtrip from Tallahassee to Madison costs $1.10, the price of about six gallons of gasoline. McKinney drives his truck from his home to the Tallahassee Commercial Airport near Lake Jackson where they take off each weekday for Madison.

Coleman has flown enough to earn his private license, 40 hours, and expects to be eligible for the Airline Transportation Rating when he stops. He has 30 minutes for his flight from Tallahassee to the old air strip, Observatary Hill, some two miles east of Madison.

Both say they realize the value and importance of an education. "It is wise to study hard now. You will need your education later. Maybe you won't have to fly so far to go to school."

In addition to his work at the university, McKinney has been given the job of keeping Coleman awake as well as watching for landmarks and other planes.

"It's a terrible thing to do," said Coleman. The professor insisted that the students had cheated and that the teacher be called to the chandelier. He said, "It's a terrible thing to do," he continued, "but it makes the person involved think twice before doing such a thing again and should illustrate to the rest of the class the futility of trying to get away with cheating."

Looking directly at a coed in the front row, he accused her of cheating and then asked, "Well, what do you have to say for yourself?"

"Mr. Jones . . . I didn't do it," the accused replied fearfully. "How can you accuse me of cheating?

"You have to say for yourself?"

"Mr. Jones . . . I didn't do it," the accused replied fearfully. "How can you accuse me of cheating?

"You have to say for yourself?"

"Mr. Jones . . . I didn't do it," the accused replied fearfully. "How can you accuse me of cheating?

"You have to say for yourself?"

College Buys More Property

The rapid expansion of VSC has necessitated the need for more building space. An option has been taken by the University System Board of Regents on the J. T. Griffin property near Southwood Subdivision. The board has paid $300 for an option to buy the land for $20,000 within 120 days. The land consists of three lots in the block C of the Brookwood Park Subdivision.

The adjoining property at the intersection of Oak Street and Vise Road is also under option by the board. The property consists of 1.21 acres, with a frontage of 867 feet on Baytree Road, and a 217 foot frontage on Baytree Road. The option is to purchase the property for $100,000.

St. Bernard

In addition to the usual registration spectacles of students with blistering feet and extremely low morale passing out from fatigue and hunger, while waiting to sign up for a course that has already closed out, students were treated to the inescapable experience of seeing their white faced, panic stricken female companion, in their staggering steps, securing the campus for all their lost HIM cards.

The new yellow lines and roped off spaces around the campus are not just for decoration. They are now being enforced by our recently acquired Florida campus policeman, who, when he is not with horrible efficiency, and possibly in his safety car that has no lights.
Womack, Davis, Glasgow
Cop Speech Forum Awards

BY GERALD BOYD

The sermon-like speech by Jimmy Womack took first place in the first Speech Forum presented by the Sock and Buskin Club of VSC. The forum was the first of its kind to be presented at VSC and it consisted of ten speakers from the Speech 105 classes.

Womack won first place with a speech entitled "The Modern Moral Man." The speech stressing man's obligation to his fellowman was done very effectively and with much emphasis.

Second place was taken by Kay Davis with a humorous satire on life at VSC entitled "VSC's Woman's Dorm." The audience roared with laughter at the many sarcastic comments about the dorm, the bus, and the classrooms at VSC. The speech was well delivered and the level of interest never dropped from the first word to the last.

Lynn Glasgow took third place with a speech entitled "Benefits of Education Courses." She compared the value of education courses to professional courses and gave statistics concerning the value of education courses to the teacher and to his students.

SPEECH FORUM WINNERS

Kay Davis won second place, Jimmy Womack first, and Lynn Glasgow won third.

Pine Cone Pix

Shot Once Only

Group pictures are being made for the Pine Cone and in order to have a representative yearbook it is urgent for students to be present when pictures are made, said Margaret Anne Parsons, editor.

The Pine Cone must meet its deadlines on time. It is impossible for the photographers to reschedule shots after a working schedule is made.

Any student who is in a campus group is urged to meet with that group when pictures are scheduled.

We want to make this year's Pine Cone the best we've ever had, and to do this we must have the cooperation of the students," said Miss Parsons.

Turley To Speak At Rew; Responsibility Is Theme

"A Question of Responsibility" will be the theme of Religious Emphasis Week, January 27th. Chaplain Douglas C. Turley, B. D., Th. M., will be the assembly speaker. Rew is sponsored by the Student Religious Council and financed by the Student Government Association.

Chaplain Douglas C. Turley is Chief Clinical Chaplain at Moody Air Force Base. He is former Chief Chaplain at Midleide, Georgia, and former Chief Chaplain at the Georgia Mental Health Institute. He has also been a professor of music at Georgia State University.

The sermon-like speech by Chaplain Turley was the second best of the forum. He stressed the importance of responsibility in all phases of life. He pointed out the need for responsibility in music, philosophy, and the arts.

A humorous speech was given by Fred Godwin entitled "The Blind Date" which described the beauty and charm of the proverbial blind date.

David Robinson gave a convincing and well delivered speech entitled "The Need For Publicly Supported Junior Colleges." He pointed out the advantages of junior colleges and gave statistics concerning the number of students graduating from junior colleges and the number of students who drop out during the first two years of a four-year college.

Nancy Barrow demonstrated the fundamentals of playing tennis in her speech entitled "Tennis." She demonstrated the basic strokes and the game of tennis along with her demonstration.

The speeches were followed by entertainment by Bunny Bridges and Brenda Hankinson. They entertained the audience with their Depositions and financially supported their own performance. They also entertained the audience with their Depositions and financially supported their own performance.

Lectures on Words:

Dr. Rowland M. Myers

The Romance of Words was

the subject of a lecture by Dr. Rowland M. Myers Jan. 11, in the

Student Center. His appearance at VSC is sponsored jointly by the SGA and English

Department.

Dr. Myers, a native of Brooklyn, received his

Ph.D. in Romance Languages and Literature from The Johns

Hopkins University in Baltimore. He was awarded an

American Field Service Fellowship for study in French

University, and has also studied in Germany, Italy,

Spain and Mexico. Dr. Myers has visited the Soviet Union and

traveled in Eastern Europe as well as Greece, Turkey, Egypt and

the Holy Land.

Dr. Myers has taught

languages and literature at five of the leading colleges and

universities in the United States as well as the American School

in Paris and the American University in Berlin, Germany.

In his lecture, Dr. Myers pre

sents a series of ordinary words,

explains their origin, and shows

how they reflect the past his

tory of man on this planet, his

fears. He also discusses the

vital question of what is

good and for evil and that words

are important weapons in life,

no matter what one does for a

living. He shows, however, that

a word can be a great power for

good and for evil and that words

are important weapons in life,

no matter what one does for a

living. He shows, however, that

a word can be a great power for

good and for evil and that words

are important weapons in life,

no matter what one does for a

living. He shows, however, that

a word can be a great power for

good and for evil and that words

are important weapons in life,

no matter what one does for a

living. He shows, however, that

Sororities Elect Officers Initiate Pledges Later

New sorority officers have been elected and pledges have been initiated. Alpha Delta Pi has elected all new officers for the year. President, Judy Wells; vice-president, Carol Alford; treasurer, Mary Green; and recording secretary, Carol Miles. The new officers include a new vice-president, Ellen Adair; secretary, Peggy Herridge; and membership chairman, Martha Jones.

On Education

Mrs. Edna Lambert Jones, educator and author, spoke at the Education Club meeting, January 4. "A prevalent idea these days is that a college education is important to those who are going to become teachers, but not to others," Mrs. Jones states. "This is important to take the business of teaching seriously, but with a lot of joy," emphasized Mrs. Jones. To the future teachers.

She expressed her views on the teaching profession and illustrated her points with excerpts from her book, "Horns in the Willows." Mrs. Jones originially wrote her book as a part of her six-year program for a Specialist in Education degree from the University of Georgia and receiving her Specialist in Education degree from the University of Georgia.

J. P. Hunnicutt

New Campus Cop

J. P. Hunnicutt, a retired United States Air Force lieutenant colonel, has assumed the job of campus traffic and safety officer. "We are here only to protect the safety of the student body as a whole," says Hunnicutt. "The growth of VSC is a big problem which causes congestion. We ask that the student cooperate and park in the designated areas. The students who don't have stickers should park off campus in order to relieve some of the congestion." Hunnicutt says he puts parking tickets on those cars which are illegally parked and those cars which are on campus but do not have a campus parking permit. The first ticket is $5, the second is $10, and if a student gets three tickets on his car he must appear before the faculty disciplinary committee.

"We would appreciate student cooperation and if the student has a grudge or particular complaint, I would be glad to advise and assist," said Hunnicutt. Hunnicutt was the Provost Marshal for Moody Air Force Base for seven years before his retirement. While in the Air Force he attended George Washington University and Texas A&M.

Of the buildings and campus much as we left them. Even good old Castle Park was under Dr. Turner's care for three days, and a little help is needed with the medical bills. Donations may be placed in a box by the cash register in the book store.

The holidays were a happy time for students and professors alike, but not for Sam. Many of us re-visited the buildings and campus much as we left them. Even good old Castle Park was still around, and gave us a good feeling to know that it was not changed much.

But is he? Sam has had an accident. He was hit by a car while trying to see the buildings and campus much as we left them. Even good old Castle Park was still around, and gave us a good feeling to know that it was not changed much.

"We would appreciate student cooperation and if the student has a grudge or particular complaint, I would be glad to advise and assist," said Hunnicutt. Hunnicutt was the Provost Marshal for Moody Air Force Base for seven years before his retirement. While in the Air Force he attended George Washington University and Texas A&M.

Of the buildings and campus much as we left them. Even good old Castle Park was under Dr. Turner's care for three days, and a little help is needed with the medical bills. Donations may be placed in a box by the cash register in the book store.

The holidays were a happy time for students and professors alike, but not for Sam. Many of us re-visited the buildings and campus much as we left them. Even good old Castle Park was still around, and gave us a good feeling to know that it was not changed much.

But is he? Sam has had an accident. He was hit by a car while trying to see the buildings and campus much as we left them. Even good old Castle Park was still around, and gave us a good feeling to know that it was not changed much.

906 Williams Street
Hopper Hall Opens For Under Classmen Women

By GRAY COOK

“We are marching to Hopper!” was the comment of several girls on December 14, 1965, when the green light was given for the girls to move in. Two in a room—last was the thought of every girl in Ashley and Converse. Three months of anticipation became the announcement that Hopper was finished and ready for occupation.

January 2, 1966, saw the first order of business after the freshmen girls moved into Hopper Hall was to get a bridge game going in the lounge. The dorm is open for the first time this quarter.

There are 163 girls living in Hopper; some are new faces, and some are old faces. Hopper was expected to have been occupied last fall, but due to rain and other complications, the work was not finished. Arrangements were made for the freshmen girls to live three in a room in Ashley and Converse. Now after three days, freshmen girls find herself experiencing the halls are too noisy, and everyone, including the boys, is happy. When the show company put in the telephones, the never-failing telephone came back to life. There were no telephones!! There was no alarm clock and neither did Hopper have a room? did we live through three in a room?

SGA Installs Information Boards

The Student Government Association has recently installed two bulletin boards in the room of the administration building and in the student center to inform students of coming basketball games, movies, and dances. These bulletin boards are for the benefit of the students and since this may be the only informative source for some students the SGA president, Jim Whiteside urges students not to change the dates that are posted.

Earl Willis, senior art major, made the boards. The board in the lobby of the ad building is used for suggestions, also.
